Subject No. 67 of the Representative Assembly Meeting of 1907, praying that as tanks in Inam villages are deteriorating on account of the continued neglect of the inamdars to repair them, the levy of Irrigation Cess on inam villages may be revived and repairs to such tanks undertaken by Government.

No. R. 8033-42—L. R. 400-07-2, DATED BANGALORE, 11TH JUNE 1908.

ORDER THEREON.—In the Representative Assembly Meeting of 1907, the bad condition to which tanks in Jodi and Agrahar inam villages had been reduced on account of the neglect of the inamdars to effect timely repairs was brought to the notice of Government, and it was suggested that Government should undertake the proper maintenance of such tanks. The members were informed in reply that the existing rules, as contained in Government Order No. 3786-95-101, dated the 1st September 1887, provided sufficiently for the purpose; and Government also promised to consider the question further.

2. The obligation of inamdars to maintain the tanks in their inam villages, and the right of Government to enforce this duty when necessary have been recognized for a long time. So far back as 1869 the Committee appointed by the Chief Commissioner to report upon questions connected with irrigation works observed in their Resolutions that, where an inamdar failed to maintain an inam tank up to the standard of safety fixed for it, Government might call upon him to bring it up to the standard, and that if he neglected to do so, they were competent either to repair the work at their own expense, recovering the amount as an arrear of Land Revenue, or to destroy the tank to prevent possible damage to other tanks.

3. In 1875 the Irrigation Cess was abolished as a separate levy by the Chief Commissioner's Notification No. 341, dated the 11th February 1875, and what was called the "equivalent of the Irrigation Cess" was directed to be collected in lieu of it; separately from, and in addition to, the quit-rent payable on the inam lands or villages. The amount so collected consisted, where the lands were surveyed, of 1—17th of the survey valuation of the lands; and where they were not surveyed, of a sum of one anna in the rupee on the revenue derived from the wet lands under cultivation, and was carried to the account of the District Irrigation Fund.

4. In the rules for the guidance of District Committees in the administration of the District Irrigation Fund, issued with the Chief Commissioner's Notification No. 62, dated the 7th May 1875, with the approval of the Government of India, provision was made for the grant, to the holders of Inam and Kayamgutta villages, of a sum of money, not exceeding the sum contributed by them, to keep their tanks in an efficient state of repairs. The services of the establishment maintained from the fund were also placed at the disposal of the inamdars for the preparation of estimates and the supervision of work done by them. And where, in spite of these facilities, an inamdar made default, it was competent for the District Committee to get the work done, and recover any excess outlay from the defaulting inamdar as a Revenue demand.

5. On the representations to the Government of some of the inamdars that, where inam wet lands derived no benefit from a Government source of irrigation, the levy of the "equivalent of the Irrigation Cess" was a hardship, Government were pleased to abolish the levy of this cess by their Order No. 3786-95, dated the 1st September 1887, and Rule VI of the Rules of 1875 for the administration of the Irrigation Fund was accordingly amended. But the responsibility of the inamdar for the timely execution of repairs to the tanks in their villages was continued unimpaired, and it was still competent for the Government to execute repairs and recover the cost from the inamdar. It was also impressed on them that this liability would be strictly enforced. In 1894 a case actually arose in which an inamdar neglected to repair a tank in his inam village. Government carried out the necessary repairs and, in ordering the recovery of the expenses from the defaulting inamdar, observed, in their Proceedings No. 13829—P. F. 137-92, dated the 15th February 1894, that every

Land Revenue, dated 11th June 1908.

holder of an inam village was bound, as a condition of his tenure, to maintain his tank in due repair and that when he failed to fulfil his obligation in the matter, Government had a perfect right under standing orders long in force, to do the needful and recover the cost as a Revenue demand.

6. Government therefore consider that there is ample provision under the existing rules to prevent inamdars from neglecting their tanks to the prejudice of the cultivators of lands irrigated by them, and it is the fault of the local authorities if action has not been taken under them to enforce their provisions so as to improve the condition of inam tanks. In view of the widespread deterioration of such tanks complained of in every district, Government deem it necessary to invite the attention of the Deputy Commissioners and the Public Works Department to the necessity for better enforcement of the rules.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Subject No. 82 of the Representative Assembly Proceedings of 1907, praying that the rule reducing the minimum area for the sub-division of coffee lands from 15 to 5 acres, now applying to Government waste lands, may be applied to occupied coffee lands also.

2. Letter No. 8716, dated the 15—18th February 1908, from the Revenue Commissioner in Mysore, stating that the operation of the rule may be extended as prayed for, and proposing that Rule 73 of the Land Revenue Rules may be relaxed and optional sub-divisions of survey numbers permitted in the case of all occupied lands subject to the existing minima prescribed by Government.

3. Note dated the 30th March 1908, by the Superintendent of Survey in Mysore, recording his opinion on the above.

No. R. 8139-48—L. R. 351-07-4, DATED BANGALORE, 13TH JUNE 1908.

ORDER THEREON.—The questions for the consideration of Government are the following:—

1. The application to occupied coffee lands of the reduced minimum of 5 acres, now obtaining, under certain restrictions, in the case of Government waste lands, which are to be granted for coffee cultivation; and
2. The extension of the privilege of optional sub-division of survey numbers to all kinds of lands subject to the existing minima.

2. The first point formed the subject of Representation No. 82 of the Dasara Representative Assembly Proceedings of 1907. In the letter read above the Revenue Commissioner expresses the opinion that the concession prayed for by the Representatives is reasonable and may be granted. But Government observe that the reason why the lower minimum was introduced in the case of Government waste lands was not to facilitate the transfers of such lands, but to enable ordinary raiyats of limited means to engage in coffee cultivation as an additional means of livelihood. The upset price of Rs. 150 which an applicant had to pay for the old minimum of 15 acres and the heavy outlay on labor and capital which coffee cultivation on a large scale necessarily involved, were felt to be serious obstacles in the way of the coffee industry being taken up by them. Government were accordingly pleased to introduce a reduced minimum. It is obvious that this consideration does not exist in the case of occupied coffee lands.

3. Further, the rule laying down a reduced minimum is applicable only under certain conditions; and if, as is proposed, it is applied to occupied coffee lands for the purpose of facilitating the transfers of such lands by sale, mortgage, etc., then either the salutary checks which Government have imposed on the application of the rule will have to be completely abolished, or, if they are to be enforced, the rule itself will be applicable only to a limited number of cases. Under these circumstances Government do not consider it necessary to reduce the minimum of sub-division in the case of occupied coffee lands.

4. As regards the general question of the sub-division of occupied survey numbers which has been raised by the Revenue Commissioner in his letter, it is observed that the proposal involves a substantial departure from the well recognized policy of the Government to preserve, as far as possible the integrity of the survey numbers as fixed at each settlement and, subject to certain necessary exceptions, to permit changes to be effected in them only during re-survey. As provided in Rule 73 of the Land Revenue Rules such sub-division has to be carried out by the Superintendent of Survey. If the proposal is accepted, it will therefore tend greatly to add to the work of the Survey Department. It will also necessitate constant changes of boundary marks with corresponding

Land Revenue, dated 13th June 1903.

alterations in the maps. If on the other hand, as has been suggested by the Revenue Commissioner, Rule 73 of the Land Revenue Rules is modified and the work is done by the Revenue Department with the help of the District Surveyor, and if no corrections are made in the village maps or records, then there will a great diversity between these records and the actual state of things in the field. Even the present boundary marks which are fixed by the Survey Department, are not, it is found, properly maintained, and addition of the special boundary marks to be fixed by the Revenue Department is sure to lead to great confusion. The phani inspection, too, will become almost impossible, there being no proper maps to guide the village officials. The Revenue Department will also find it difficult to apportion the assessment properly on each sub-division owing to the intricate nature of the present system of classification, in which lands of different qualities, for which different values have been assigned in calculating the total assessment, are frequently found combined in the same survey number.

5. The work of re-survey will also be rendered very difficult as these sub-divisions will have to be subjected to very careful examination at the time, before they are constituted into separate survey numbers, and complicated questions regarding mistakes in measurement and wrong levy of assessment are certain to arise. Government therefore deem it inexpedient to allow optional sub-division except during re-survey as provided in Rule 72 of the Land Revenue Rules.

6. The matter was carefully considered when Rule 27 of the Land Revenue Rules of 1890 which permitted such sub-division in certain cases was abolished, and the arguments both for and against optional sub-division are fully set forth in the discussion which took place at that time and which are given in the preamble to Government Order No. R. 7035-43—R. 2308, dated the 4th April 1900. The matter has been considered several times by Government since then and the final decision of Government is contained in Government Order No. 3366-75—L. R. 590-05-8, dated the 29th November 1907, when the minima for the sub-division of survey numbers were further reduced. Government consider that it is necessary on economic and other grounds to prescribe minima below which sub-division should not be permitted, and if such minima are to be observed, optional sub-division will benefit only co-occupants whose shares in a survey number are not less in extent than that prescribed as the minimum. It will not therefore afford a means to other persons interested in a survey number of protecting themselves from being affected by the default or fraud of the registered occupant in paying the land revenue, for which purpose the privilege is mostly desired.

7. The provisions contained in Sections 77 and 78 of the Land Revenue Code and Rules 40 and 75 of the Land Revenue Rules afford the necessary facilities to all such persons for safeguarding their interests, and Government deem it inexpedient to relax the restrictions which they have considered necessary to impose both on economic grounds and grounds of administrative convenience on the optional sub-division of survey numbers.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 18th June 1908.

READ—

Letter No. 5863, dated the 3rd December 1907, from the Revenue Commissioner in Mysore, submitting for orders with his opinion a copy of letter No. 392, dated the 21st November 1907, from the Deputy Commissioner of the Mysore District, enquiring whether Government Order No. R. 1684-93—L. R. 490-06-3, dated the 2nd September 1907, conveying instructions in the matter of the levy of the special cess of one anna on supari gardens, applies also to such gardens situated in Inam villages.

2. Letter No. 8811, dated the 17th February 1908, from the same Officer, forwarding for orders copy of letter No. 441, dated the 1st February 1908, from the Deputy Commissioner of the Tumkur District, soliciting orders on the same point and also as to how the cess should be levied in cases where the survey assessment of the gardens is not ascertainable owing to the Inam villages not having been surveyed and settled, and whether those Inamdars who were entitled to the halat levied on the supari exported from their Inam villages, are now entitled to a share in the cess.

No. R. 8324-33 —L. R. 295-07-3, DATED BANGALORE, 18TH JUNE 1908.

ORDER THEREON.—The benefit accruing to the holders of supari gardens by the abolition of the *halat* on supari, ordered in Government Proceedings No. Fl. 6878-88, dated the 14th March 1907, is intended to reach the holders of Inam gardens as well, and the object of levying the special cess is to provide a fund for the scientific investigation of questions concerning supari cultivation, diseases to which supari is liable, etc., in which they are also interested. Government therefore agree with the Revenue Commissioner in thinking that there is no reason to exempt garden owners in Inam villages from payment of the cess.

2. In Inam villages into which Survey and Settlement have been introduced, such cess will be calculated as on Government lands on the rates fixed for gardens in which supari is cultivated. In unsettled villages the average supari garden assessment prevailing in the nearest sirkar or settled Inam village will be adopted as the basis of the levy.

The cess will be collected from the Inamdars along with the jodi, and they will be entitled to recover the same from the raiyats concerned under Section 86 (*b*) of the Land Revenue Code.

3. The objects of the levy of *halat* and that of levying the new supari cess being quite distinct, Government agree in the opinion of the Revenue Commissioner that holders of Inam villages are not entitled to a share in the cess.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Revenue Commissioner's letter No. 11089, dated the 8th April 1908, reviewing the Comptroller's report on the working of the Treasuries in the State for 1906-07, in accordance with Government Order No. Fl. 3228-37—Gen. Fin. 134-06-1, dated the 3rd November 1906 :—

I have the honor to submit herewith Comptroller's letter No. 3041—T. A. D. Gr. I 949, dated 3rd December 1907, reporting on the working of the Treasuries in the State during the year 1906-07 with the statements received therewith, and to state that there is scarcely anything for me to add to the report :—

The administration of Treasuries was transferred to me only in November 1906. There was no occasion for me to enquire into the internal working of the Treasuries, as the duties of the Revenue Commissioner in this behalf were defined only very recently (*vide* Government Order No. R. 3432-4—Gen. Fin. 134-06-6, dated 2nd December 1907). I made it a point, however, to make a general inspection of both District and Taluk Treasuries at all the stations which I visited in my tours, and to have the mistakes and irregularities noticed then and there rectified. A list of Treasuries inspected by Deputy Commissioners and other officers during the year under report is appended hereto. So far as it can be judged from the reports relating to these Treasuries, I can say that there has not been any serious irregularity, though the Codal Rules and procedure might not have been invariably followed.

The Comptroller's review, which embodies the results of the working of the State Huzur Treasury and the eight District Treasuries, in so far as accounts are concerned, indicates a slight improvement as compared with the previous years in some respects, while in others there is a marked decline (*vide* columns 4 (*c*) and 5 (*c*) in statement B), which more than counterbalances the slight progress in other directions. On the whole it may be observed that Mysore District Treasury shows the worst results, while the Shimoga Treasury has given the least room for complaint. These comparisons, however, are somewhat misleading, as in the absence of a correct comparison of the volume of the work transacted and the strength and nature of the establishments, it is difficult to appraise correctly the degree of praise or blame attaching to each office.

A few of the most important irregularities noticed by the Comptroller are referred to below :—

In para 5 of his letter, the Comptroller observes that the vouchers and subsidiary returns are not received with the cash accounts as they ought to be; and in para 6, he suggests that the delay in the transmission of vouchers requires investigation. I beg to state that, in accordance with para 2 of Government Order No. Fl. 6767-75—Gen. Fin. 224-06-2, dated 8th March 1907, a Circular drawing the special attention of the Deputy Commissioners to this subject was issued by me in May 1907, and in order to ensure the correct and punctual submission of His Majesty's Jamakarch Accounts with the connected vouchers, strict instructions were issued in this office Circular No. 4436-43, dated 4th November 1907. The Comptroller and the Deputy Commissioners were also requested to bring to my notice any specific cases of delay or omission which might occur. But no such cases were brought to my notice so far.

No correct inference can be drawn as to the defect in the Treasury work by a comparison of the number of objection slips and audit memoranda issued during the year with those of previous years, for, how many of these objection slips are due to negligence on the part of the Treasury Officers, it is not possible to say. The number given in the statement includes even objection slips addressed to other Departments for errors noticed in their bills which either do not pass through the Treasury Officers, or are not expected to be checked by them. Besides this, large increase may be due to greater scrutiny in his office, as explained by the Comptroller in para 12 of his letter.

The Treasury Inspection Reports that are received in this office are being very carefully scrutinised, and to remedy the defects and irregularities noticed therein, instructions based on the Codal Rules are being issued. It is too early to say how far these instructions have borne fruit.

It may be remembered that for several years past the quality of work turned out in the Treasuries has been uniformly low, and this long-standing defect can only be gradually remedied. I must repeat what was observed by me in the report for 1905-06, *viz.*, that no real progress can be expected unless the personnel of the Treasury Department is improved. I would strongly urge the advisability of making some of the District Treasury Accountants pass through the Comptroller's Office by sending occasionally Junior Accountants from the Comptroller's office to the District Treasury, taking in their place other Accountants from the District Treasury. Now that Government have prescribed a course of practical training for Assistant Commissioners in Treasury work, and ruled that all other Treasury Officers and officials (except District

Treasurers) should pass the Local Service Accounts Examination, it is hoped that some perceptible improvement will be attained in the near future.

Letter No. 3041—T. A. D. Gr. I. 949, dated the 3rd December 1907, from the Comptroller, Mysore Government, to the Revenue Commissioner in Mysore.

I have the honor to forward herewith for incorporation in your report to be submitted to Government, as laid down in para 6 of Government Order No. Fl. 3228-37—Gen Fin. 134-06-2, dated the 3rd November 1906, my review on the working of the Treasuries in the Province for the year 1906-07, together with the statements usually appended to it.

2. Statement A shows in a tabular form the chief defects observed during the course of audit. In statement B, the figures in statement A are compared, with those in the same statement for the previous year. In statements C and D are shown the period of delay in the submission of the monthly lists of payments, and the annual returns respectively. The delay in the return of the objection statements is shown in the statement E. The names of the officers, who were in charge of the Treasuries during the year under report are given in statement F.

3. *Lists of payments and cash Accounts* —In the submission of the 1st list of payments, Bangalore and Shimoga have been stationary, the delay in these districts being 8 and 4 days, respectively, on the average as in the last year, while in Chitaldrug there was a slight improvement, the lists having been sent two days earlier than usual. The delay in Mysore and Hassan was 13 and 15 days against 3 and 11 days respectively in 1905-06. In the despatch of the 2nd list, there was an increase of a day's delay in Hassan and Tumkur, and of six days in Kadur, while the other districts show improvement.

4. It is satisfactory to note that Shimoga has maintained its wonted punctuality in the submission of both the 2nd list of payments and the cash account, which were all received on due dates during the year under review.

The cash accounts from Bangalore and Tumkur were received fairly well in time, the delay having been only two days on the average. Kadur, which was almost as prompt as Shimoga during the preceding year, and Chitaldrug which was next to Kadur, have both fallen behind, there having been a delay of five days on the average in the submission of the cash accounts throughout the year. Though there has been improvement in Kolar, the delay of six days which is noticeable in this district is not satisfactory. Mysore and Hassan are stationary, if not worse. The necessity for the punctual submission of these returns on due dates, which was pointed out in para 3 of the last year's Review cannot be too strongly reiterated.

5. *Vouchers and Subsidiary Returns.*—As noticed in the previous reports, these are not all received with the lists of payments and cash accounts, respectively, as they ought to be. The number of vouchers and statements, on the average per month, which were not so received, are entered in column (2) of statements A and B.

6. Apart from the fact that the number of vouchers, the transmission of which was delayed is large in some of the districts, notably Kolar, the matter requires investigation as no payment can be made without a voucher, which should therefore necessarily accompany the list of payments in which it is charged. I request that the Treasury Officers may be asked to give the matter their personal attention, and take immediate steps to remedy the defect, which apparently is traceable in the Taluk Treasuries, as these vouchers generally relate to payments made in these Sub-Treasuries.

7. I further solicit special attention to the delay in the despatch of subsidiary statements which are not sent with the cash accounts. The number of statements which were delayed is shown in column 4 (*a*) of the statement. As pointed out in the previous reports, the delay in the receipt of these statements retards the closing of accounts and objection books in this office. It is therefore necessary that every endeavour should be made to send these along with the cash accounts. In this connection I have again to bring to your special notice the drawbacks in the Mysore District Treasury. Not only are the various returns sent long after the due date, but they are usually in an imperfect and incomplete form, and have invariably either to be returned or retained in this office undisposed of, until the discrepancies pointed out are explained, or the omissions supplied. Even the lists of payments and the cash accounts, which are generally correctly written up everywhere, had to be returned for rectification in this District Treasury.

8. The statements of sums credited to "Advances Recoverable" in the Kadur District Treasury for the months of February, March and April and May and June 1907 were all received together on the 29th August 1907 and 29th September 1907, respectively, instead of with the cash accounts of the respective months. The objection books of this district for these months, which should have been closed on the 15th of the 2nd month following that to which they related, were in consequence kept open till the above dates.

Land Revenue, dated 24th June 1908.

9. *Annual Returns.*—There has been some improvement in the receipt of these returns in general, excepting Chitaldrug where there has been a delay of one month and twenty-one days against five days in 1905-06. The delay in the Mysore District is two months and twenty-two days against four months in the previous year.

10. *Objection Statements and Audit Memoranda.*—The delay in the return of the objection statements each month, with reference to each list of payments, is, as already stated, shown in statement E. The greatest delay has occurred in the Bangalore, Tumkur and Mysore Districts. The objection statements of the Tumkur District from February 1907 have not been returned up to date. The delay in these districts has gone up to seven months.

11. In column 4 (*c*) of statement B, is shown the total number of objection slips and audit memoranda, that were not returned on due dates, both by the Treasury Officers and other disbursing officers to whom they were issued. The number of these is abnormally high, the maximum having risen to 519 against 189 in the past year. The minimum is 53 against five in the previous year. But, as, in these cases, the audit slips are sent to the disbursing officers direct, as required in Article 967 of the Civil Account Code, separate references will be made to them.

12. *Items objected, Miscellaneous.*—The nature and the number of items objected to are shown in columns 5, 6 and 7 of statements A and B. It will be seen from column 5 (*c*), that the number of excess payments, and payments made contrary to Article 5 of the Civil Account Code, has risen considerably high in the Bangalore, Kolar, Tumkur and Mysore Districts. The number of other omissions and mistakes, referred to in column 7, is also pretty high this year. This is mainly due to greater scrutiny and better check in this office. The number of requisitions for corrections in the Treasury accounts after their submission to this office is gradually decreasing.

13, *Concluding Remarks.*—It has been pointed out in the previous years that the quality of work turned out in the Treasuries is far below the normal standard. The question has for some time past been engaging the attention of Government, and it has since been decided that Assistant Commissioners should, before they are placed in independent charge of Treasuries, undergo special training in all the branches of Treasury work. The rules for the training of these officers have accordingly been laid down in Government Order No. R. 1031-40—G. F. 246-04-6, dated 7th August 1907.

No. R. 8490-9—L. R. 539-07-2, DATED BANGALORE, 24TH JUNE 1908.

ORDER THEREON.—Government observe that there has not been much material improvement in the working of the Treasuries during the year under review. Sufficient attention has not been paid to the direction that one of the two inspections should be conducted by the District Treasury Officer, nor has sufficient regard been paid to Article 15 of the Civil Account Code about the timely return of objection statements and audit memoranda to the Comptroller. The report discloses further that the number of excess payments, as also those of other omissions and mistakes, were much greater during the year than in the year previous.

2. As regards improving the personnel of the Treasury Establishment by the introduction of properly trained men from the Comptroller's Office, Government will be glad to receive definite proposals from the Revenue Commissioner in consultation with the Comptroller.

3. Government hope that with the direct control now vested in the Revenue Commissioner over Treasury Administration, and the several measures which have been taken to improve the efficiency of the staff during the year, the next year's report will show distinct signs of progress.

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.
The Comptroller, Mysore Government.
The Deputy Commissioners of Districts, Treasury Department.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The following papers relating to the settlement of the Govardhangiri Forest in the Sagar Taluk.

(1) Letter No. 97, dated the 26th September 1907, from the Forest Settlement Officer in Mysore, reporting on the conclusion of the settlement of the forest in question.

I have the honor to submit herewith, a report on the conclusion of the Settlement of the Govardhangiri Forest in the Sagar Taluk of the Shimoga District.

2. The initial Notification under Section 4 of the Mysore Forest Regulation, proposing the area for reservation, appeared on page 626 Part I, English, of the *Mysore Gazette*, dated 19th November 1903. Mr. B. Ramaswami Iyer, who had been appointed Forest Settlement Officer in respect of this block, published a notification under Section 5 of the said Regulation, *vide* page 180 Part II, Kanarese of the *Mysore Gazette*, dated 10th March 1904. The same was served on the villagers concerned and he held an enquiry into the rights and privileges on the area proposed but did not record his decision, having sent the enquiry records to the District Forest Officer, Shimoga, for his opinion as to the admissibility or otherwise of the claims preferred by the raiyats at the time of settlement. Before these records were returned, Mr. Ramaswami Iyer was relieved of his duties by the late Mr. A. Ananda Rao.

3. Mr. A. Ananda Rao perambulated and inspected the area on the 17th, 18th, 22nd, 23rd, 24th and 25th April 1906, duly intimating to the villagers through the Amildar concerned, the above dates, and held an enquiry into the nature of claims put forward by the raiyats for the following:—

(i) 10 claims for free grazing,
(ii) 5 do right of way,
(iii) 1 claim for right to worship,
(iv) 2 claims for kumri cultivation,
and (v) 5 do rights not falling under any one of the above.

Of the ten claims in (i), 7 were admitted and three rejected. All the claims in (ii) were admitted. The claim in (iii) was rejected. The two claims in (iv) were admitted. All the claims in (v) were admitted and recorded.

4. According to the settlement there will be thirty-nine enclosures (including three for kumri cultivation only) with sufficient area around each for the exercise of such rights and privileges as the villagers are entitled to in the Malnad, on the area left for them. Apart from this, the Kunbis who are the chief working classes in this part of the country have been allowed 50 acres in Survey No. 35 of Balagi, 200 acres in Survey No. 11 of Nelleri, 300 acres in Survey No. 18 of Nagavalli, 100 acres in each of Survey Nos. 41 and 1 of Uralgal village and a portion has also been allotted for would-be coming Kunbis in Survey No. 19 of Bhankuli, as preferred by them for the kumri cultivation.

5. The Deputy Commissioner, Shimoga District, informs me in his No. 881, dated 20th September 1906, that no appeals have been preferred to him against the settlement of the block, the period allowed for the prefere ice of such by the rules being only three months from the date of settlement (26th April 1906).

6. The following records are herewith submitted:—

1. B Register,
2. C Register,
3. Boundary Notification,
4. Sketch map,
and 5. Topo tracing.

The date from which the reservation has to take effect, may be inserted in the draft boundary notification.

(2) Letter No. 6728, dated the 21st December 1907, from the Revenue Commissioner in Mysore, furnishing his opinion on the settlement made by the Forest settlement Officer.

(3) Letter No. 7120, dated the 25th February 1908, from the Conservator of Forests in Mysore, submitting his remarks on the above.

(4) Letter No. 278, dated the 28th April 1908, from the Forest Settlement Officer, resubmitting the settlement papers duly revised as directed in letter No. 5766—Ft. 116-07, dated the 7th March 1908.

(Sd.) A. Ananda Rao, Forest Settlement Officer. 18th April 1906.

B—Register of claims to lands, rights to forest produce or easements in the proposed Govardhangiri State Forest—*contd.*

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settlement	Remarks
1	2	3	4	5	6	7	8	9
12	Naranabhatta son of Subbabhatta on behalf of Nagavalli villagers.	18th Apl. 1906	Requests that rights as are granted to other villagers may also be granted to this villagers and that foot-paths etc., as shown in the map may be left.	.....	May be granted ..	Each family will get from the State Forest gratis every year five bundles of canet balagi wood sufficient for two pounders for a year for each family and a head load of dadasalu per year per family, and the foot paths marked on the village and sketch maps will be left free for use throughout the year. (Sd) A. Ananda Rao, Forest Settlement Officer. 18th April 1906.		
13	Ramachandrappa, Shanbhog of Uralgal etc., villages on behalf of Uralgal villagers	25th do	Requests that free grazing, wood for agricultural implements may be granted in the State Forest, gratis, and that as the area left for kumri cultivation is not sufficient, another 100 acres may be provided.	.....	As the villagers of Uralgal have these in the lands left for them, they are not entitled to any concession.	The village is wholly required to be made a State Forest. From the nature of the forest in this, it is not possible to take only a few S. Nos. and leave the rest for the bare hills and rich vegetation are not continuous, but are promiscuously mixed up. I have therefore, as agreed to by the Range Forest Officer, marked off portions of land around each of the hamlets, which contain not only open portions for grazing, but wooded places also, from which fuel, jungle poles, leaves etc., can be obtained. This is more convenient for the villagers than leaving an entire or half a Survey No. at a long distance (2) Provision has been made for kumri cultivation for the Kunbis living there. (Sd.) A. Ananda Rao, Forest Settlement Officer. 25th April 1906.		
14	Narasiah of Uralgal on behalf of villagers (Uralgal)	25th do	Claims for free grazing, fuel for consumption, canes and dadasalu from the State Forest, free and states that the lands left for them are insufficient.	.....	May not be granted as the portion left for them contains full, canes, dadasalu etc , open space for grazing.	As agreed to by the Range Forest Officer, marked off portions of land around each of the hamlets which contain not only open portions for grazing but wooded places also from which fuel, jungle poles, leaves etc., can be obtained.

15	Ramachandrappa Shanbhog of Uralgal on behalf of Kanur villagers	25th Apl. 1906	Prays that Survey Nos. 15, 69 & 12 may be left for the use of the villagers, besides 115 acres left in the 5 enclosures.	.....	These may not be granted as the lands left for the villagers, contain open portions for free grazing.	As agreed to by the Range Forest Officer, I have marked off portions of land round each of the hamlets which contain not only open portions for grazing, but wooded portions also from which fuel, jungle poles, leaves etc., can be had. (Sd.) A. Ananda Rao, Forest Settlement Officer. 25th April 1906.
16	Ditto	Ditto	Requests that foot-paths as shown in the village map may be left.	.....	May be left.	The foot-paths and roads marked in the village and sketch maps will be left free for use during the whole year. Sd. A. Ananda Rao, Forest Settlement Officer. 25th April 1906.
17	Ramachandrappa Shanbhog of Uralgal on behalf of Kanapagar villagers.	Ditto	Requests that enclosures 7, 25 to 31 (both inclusive) may be left together with all the assessed wastes, for the villagers.	.....	The enclosures as are now marked on the map may be left and canes, dadasalu may be given gratis from the State Forest.	Seven enclosures, 25 to 31 (both inclusive) are left for the use of the villagers. (Sd.) A. Ananda Rao, Forest Settlement Officer. 25th April 1906.
18	Ditto	Ditto	Dogs that the foot-paths as shown in the village map may be left.	.....	May be admitted.	Foot-paths and roads marked in the village and sketch maps will be left free for use throughout the year. (Sd.) A. Ananda Rao, Forest Settlement Officer. 25th April 1906.
19	Kalliah son of Bheemiah of Kanapagar on behalf of villagers (Kanapagar).	Ditto	Prays that the whole village may be left. If this is included in the state forest they may be allowed to bring gratis from the State Forest, canes, dadasalu and poles for cattle sheds and they want grazing for cattle.	.....	May be granted.	Seven enclosures, 25 to 31 (both inclusive) are left for the villagers' use. Each family will have from the State Forest gratis every year 5 bundles of cane, halagi wood sufficient for two pounders for a year for each family and a head load of dadasalu per year per family. (Sd.) A. Ananda Rao, Forest Settlement Officer. 25th April 1906.
20	Kalliah son of Bheemiah on behalf of Hanikuli villagers.	Ditto	Requests that 8 enclosures, 32 to 39 (both inclusive may be left for the villagers' use as marked on the village map and shown to me.	.....	The enclosures as are now marked on the map may be left and as the portion left for the village does not contain canes, dadasalu, these may be given from the State Forest grats.	Eight enclosures, 32 to 39 (both inclusive) are left for the villagers' use. (Sd.) A. Ananda Rao, Forest Settlement Officer. 25th April 1906.
21	Ditto	Ditto	Begs that foot-paths and roads shown in the village map may remain as they are.	.....	May be admitted.	Foot-paths and roads as marked on the village and sketch maps will be left free for use during the whole year. (Sd.) A. Ananda Rao, Forest Settlement Officer. 25th April 1906.

							52 square miles													

Proceedings of the Goernment of His Highness the Maharaja of Mysore,

No. R. 8246-50—Ft. 116-07-6, dated Bangalore, 16th June 1908.

Order thereon.—The block in question covers an area of 52 square miles comprising 6,507 acres and 2 guntas of kharab lands and 26,782 acres and 19 guntasof gomal lands belonging to 8 villages. These villages and hamlets as well as isolated bits of occupied lands and lands assigned for kumri cultivation have been treated as enclosures, the total of which numbers 39. The total area left for camping grounds within the forest comes to 4,181 acres. There have been no appeals against the settlement effected by the Forest Settlement Officer. The area is very sparsely inhabited and the present requirements of the villagers cannot be great. If however the villages extend and any need is felt for larger extent of grazing or other lands, Government will be prepared to favourably consider any proposals to make adequate provision for them by disafforesting, if necessary, some of the portions included in the forest under Section 30 of the Forest Regulation. Under the circumstances, Government are pleased to approve of the settlement and to direct the publication of the draft Notification submitted by the Forest Settlement Officer in the *Mysore Gazette* as hereunder, the 1st of August 1908, being fixed as the date from which the block shall be declared a State Forest.

2. The Deputy Commissioner of the Shimoga District will be requested to promulgate the boundaries of the forest in the localities in which it is situated.

Proceedings of the Government of His Highness the Maharaja of Mysore, Forest, dated 27th June 1908.

READ—

The following papers relating to the grant of certain concessions to raiyats residing within the limits of Municipal towns in the malnad parts of the Shimoga, Kadur and Hassan Districts.

(1) Subject No. 105 discussed at the meeting of the Representative Assembly Members in October 1907.

Summary of Discussion.—Land-holders in the malnad are allowed concession rates of seigniorage for timber; but no such concession is shown to raiyats residing in the neighbouring Municipal towns. The raiyats are not allowed to bring into Municipal towns even timber which they are entitled to remove for use in the villages in which they hold lands. It is therefore prayed that the land-holders residing in Municipalities may also be shown in a similar concession.

Reply of Government.—Referred to the Revenue Commissioner and the Conservator of Forests for opinion.

(2) Letter No. 6484, dated the 1st February 1908, from the Conservator of Forests in Mysore.

In reply to your docket No. R. 4290-1—Fts. 127-07-1, dated the 15th instant, inviting my attention to Dasara Representative Assembly Subject No. 105 of 1907, and requesting my opinion in the matter referred to therein, I have the honor to state that Rule I of the Rules issued under No. 6084—Ft. F. 105-95, dated 8th January 1896, provides that the privileges granted under the Rules may only be exercised by the raiyats within the limits of village forests wherever specially assigned or in areas specially set apart where village forests have not been assigned: hence the privileges cannot be enjoyed by persons residing in Municipal towns. I do not recommend the relaxation of this rule in favor of people living in towns, for the concession would lead to abuses and to the sacrifice of revenue.

(3) Letter No. 11718, dated the 23rd April 1908, form the Revenue Commissioner in Mysore.

With reference to your docket No. R. 4290-1—Fts. 127-07-1, dated 15th January 1908, requesting my opinion on Subject No. 105 of 1907, of the Dasara Representative Assembly proceedings whether concession rates of seigniorage for timber allowed for the land-holders in malnad may also be given to the raiyats residing in the neighbouring Municipal towns, I have the honor to state that Rule 8 of the Rules of the raiyats' privileges in malnad lays down that the raiyats will be entitled to obtain wood and bamboos for building and agricultural purposes from Village or District Forests on payment of favourable seigniorage mentioned therein, provided that the wood or bamboos shall be used for the construction or repairs their farm buildings and dwelling houses in the *village to which the forest is attached or has been assigned.* I think that the word "Village" occurring in the Rule, should not be construed so as to exclude Municipal towns where District Forests are in their vicinity or have been set apart for their use. As the object of the Rules is to afford facilities to land-holders in constructing dwelling houses and agricultural buildings and as these, in turn, are expected to aid the Forest Department, in the prevention of fire in the State Forests there is no reason why the raiyats residing in the Municipal towns if any close to the forests should not be entitled to the same concession.

No. R. 8559-68—Ft. 127-07-4, DATED BANGALORE, 27TH JUNE 1908.

ORDER THEREON.—Under Rule 8 of the Rules defining the privileges of raiyats in the malnad districts of Shimoga, Kadur and Hassan, raiyats are entitled to obtain wood and bamboos at concession rates for building and agricultural purposes in village or District Forests assigned to their villages. The representative members contend that this concession should be shown to raiyats even when they reside in the neighbouring Municipal towns and should not be confined merely to the villeges in which they hold lands. Considering that there are comparatively few Municipal towns in the malnad, it seems to Government that the extension of the privilege in such cases will neither result in any great loss of revenue nor lead to unnecessary destruction of forests, while it will be of appreciable benefit to the raiyats themselves whose prosperity has been affected by various causes. The bulk of the inhabitants in these Municipal towns will also be found to belong to the agricultural classes. Government are therefore pleased to direct that the concessions granted under the raiyats' Privileges Rules shall be applicable to land-holders residing in Municipal towns also. These concessions will be exercised in the neighbouring District Forests which may be assigned to these towns as required by the Rules.

2. The Deputy Commissioner of Shimoga is requested to intimate the above to the representative members concerned.

(1) Extract from the diary of the Game Preserve Officer in Mysore for the month of April 1908.

2nd Purlehally-Majjankattesara and back.

No game was seen except fresh foot-prints of cheetals and bears.

Almost right round of this reserve there is cultivation. After ragi is sown cheetals come down in large numbers to feed on tender shoots in the fields where they generally fall victims to the villagers' guns.

In this Reserve except cheetals and a few Sambhur of very ordinary size, no other species can be had.

The facility to pursue game is very very little on account of huge boulders, nallahs and ravines. Major portion is not easily accessible to the sportsman.

There is a small forest lodge on the top of Nagpuri plane, but the water difficulty is too much in hot weather, the villages being far away from this place, one's daily wants cannot be got easily in time without much trouble and expense. To add to these, all the things must go on heads of coolies, to the top of the hill, as there is no cart road.

Taking all these into consideration, I am of opinion to give up this Royal Reserve and take up, Karadibetta forest in Shikarpur Taluk, were all kinds of game can be had. If this is taken up, I shall have the opportunity of finding out tiger grounds in the adjoining District Forests and khans up to Harocoppa, Choradi and Ananthapur.

This would certainly give relief to the Mysore District where tigers are getting scarce.

(2) Letter No. 1116, dated the 9th June 1908 from the Deputy Commissioner of the Shimoga District, reporting that he has no objection to the Karadibetta Forest being made into a Game Preserve.

(3) Letter No. 10687, dated the 17th June 1908 from the Conservator of Forests in Mysore :—

With reference to para 3 of Government Order No. R. 7776-7—Ft. 30-07-29, dated the 28th May last, I have the honor to state that I agree with the Game Officer, that the Hirikalgudda State Forest is not suited for a Game Preserve owing to its peculiar configuration and physical features. The tract is very hilly and rugged, except in the centre where the ground is fairly level. The hill slopes are covered with massive boulders and sheet rocks; the former give rise to numerous caves, which afford secure shelter for tigers, panthers and bears. Spotted deer is pretty common in the plain referred to. The country does not lend itself for beating owing to the rugged nature of the ground and the obstructions offered by boulders. Added to these drawbacks, the tract remains waterless during a great portion of the year so that shooting is only possible by camping in the neighbouring villages during that period.

2. As regards the suitability of Karadibetta for a Game Preserve, I have to state that it is an extensive compact forest situated in the midst of a fine game country. In it, tigers, panthers and bears are met with at all seasons. Owing to pouching and indiscriminate shooting, the other kinds of game are rare, but under careful protection it could be converted into a fine Game Preserve. I have been informed by the neighbouring villagers that it was a favorite resort of sportsmen in the Commission days.

No. R. 8616-7—Ft. 204-07-3, DATED BANGALORE, 29TH JUNE 1908.

ORDER THEREON.—The Government of Mysore are pleased to approve of the proposals contained in the papers read above. The Hirikalgudda State Forest will be removed from the list of Game Preserves and Karadibetta Forest will be substituted in its stead. A notification to this effect will be published in the Gazette as hereunder.

NOTIFICATION.

No. R. 8618—Ft. 204-07-4, dated 29th June 1908.

The Government of His Highness the Maharaja of Mysore are pleased to exclude the Hirikalgudda State Forest in the Hassan District from the list of Game Preserves in the Mysore State constituted under Notification No. R. 3713—Ft. 63-03-2, dated the 27th October 1904 and to direct that the Karadibetta Forest in the Shimoga District be included therein.

Letter No. 10071, dated the 27th May 1908, from the Conservator of Forests in Mysore.

With reference to the observations made in Government Proceedings No. R. 3628-9—Ft. 15-07-5, dated the 11th December last, in connection with the defalcation committed by the late Accountant of the Hassan District Forest Office, I have the honor to state as follows :—

2. Paras 7 and 8 of the Proceedings. I beg to submit the marginally noted reference from the District Forest Officer, Hassan, and a copy of my circular No. 6765-72, dated 12th February last, issued to the District Forest Officers revising the procedure of recovery and credit of Savings Bank security amounts every month and the custody of Savings Bank Pass Books, from which it will be seen that suitable steps have been taken to prevent frauds.

Hassan District Forest Officer's No 325, dated 30th April 1908, and its enclosed circular.

3. Para 9. Instructions have been issued to the District Forest Officers to maintain a register showing recovery on account of Security Deposits and to present the same before me at the time of my inspections of the District Forest Offices. Formerly monthly statements used to be furnished by the District Forest Officers. These were lately stopped as being superfluous.

4. Concluding part of para 10. The periodical examination of the pass books alluded to is not necessary under the present system.

5. Para 13. In conclusion, I beg to submit that the total amount of Rs. 298 recovered from the late Accountant was duly debited to the District Forest Officer's Cash Book in July 1907, and immediately transferred as advance for current expenses, to the Hassan Range Officer. For Rs. 48 the security amount of Forester Srinivasa Rao, a cheque was issued by the District Officer, Hassan, and the amount remitted by means of public service remittance transfer receipt to the District Forest Officer, Kolar, for crediting there the amount to the security deposit of Forester Srinivasa Rao, who has since been transferred to the latter district. Hassan District Forest Officer's letter No. 233, dated the 28th January last, is also enclosed for reference.

CIRCULAR.

No. 6765-72, dated 12th February 1908, from the Conservator of Forests in Mysore, to all the District Forest Officers, through the Deputy Commissioners.

Has the honour to state that as there appears to be a diversity of practice in regard to the recovery of Security Deposits from subordinates and the crediting into the Treasury of such deposits, the following instructions are issued in supersession of clause (1) under the first paragraph in this office printed Circular No. 4099-106, dated the 1st December 1906 :—

1. A register must be maintained by each Range or Disbursing Officer, showing the deductions made for (*a*) Security Deposits and (*b*) Insurance Premiums.

2. At the end of each month the consolidated pay bill for the whole Range Establishment must be prepared. The bill must be accompanied by two statements showing the deductions to be made for (*a*) Security Deposits and (*b*) for Insurance Premiums.

3. On receipt of the pay bill, the District Forest Officer will check the same and return it with the statements referred to in para (2) above, together with a cheque for the amount admitted and passed. On the reverse of the cheque, he will make the following entries:—

Deduct Rs.....

As per separate statements attached.....

Net amount payable.....

4. The Range or Disbursing Officer will send the cheque together with all the required Pass Books.

5. The Treasury Officer will make the necessary entries in the statements and return them to the Range or Disbursing Officer.

6. The Range or Disbursing Officer will enter on the Dr. side of his cash book the total amount of the cheque, and on the Cr. side the full pay of each official separately. Again on the Dr. side, he will show the recoveries made from each official, and on the Cr. side, payments made on his behalf as per the two statements above referred to.

7. The District Forest Officer will show in his Cash Book only the amount of the cheque and not the recoveries and payments into the Treasury, except when he is himself the Disbursing Officer.

Forest, dated 30th June 1908.

8. Whenever an official is transferred to another district, care must be taken to transfer all his accounts *immediately* to the district to which he is transferred.

No. R. 8776-7—Ft. 15-07-7, dated Bangalore, 30th June 1908.

Order thereon.—Recorded.

2. It is hoped that the procedure now prescribed will ensure timely deductions from the pay to make up the amount of the security as provided by the standing orders of Government and their immediate payment into the Treasury and the proper maintenance of security accounts.

Correspondence ending with the Excise Commissioner's letter No. 9817, dated the 7th May 1908, submitting the record of enquiry relating to the claim of the Inamdar of Arsanahalli Peddanahalli in the Devanhalli Taluk to the toddy revenue of the village.

No. FL. 6449-50—S. R. 60-02-4, DATED BANGALORE, 11TH JUNE 1908.

ORDER THEREON.—The village of Arsanahalli Peddanahalli in the Devanhalli Taluk was granted to one Venkata Rao on Kayamgutta tenure on the 8th December 1829 by Fouzdar Thimmapparaja Urs.

2. The village has a grove and no toddy shop.

3. In the Nirup dated the 17th January 1830, issued from the Fouzdar to the Amildar of Devanhalli, half a pagoda is shown in the details of the receipts of the village, on account of Sendi trees; but at the Inam Settlement conducted in 1878 all rights to Abkari have been reserved to Government.

4. The phraseology employed in the Nirup of 1830 describes only date trees and is clearly distinguishable from the customary phrases of the time such as Sendi Hootwali, "Panchabab" or "Abkari" which denote the whole of excise revenue from toddy.

5. In the foregoing circumstances Government agree with the Excise Commissioner that the Kayamguttadar is entitled only to the one-fifth of the Grove Farm rent payable to him under Rule 4 appended to Government Order No. 2074-83—R.F. 166-92, dated the 2nd August 1901.

6. No reference is made in this order to the Baki Patti of Eswara (1877-78) and the Panchabab Hutwali lists mentioned in the Excise Commissioner's letter as there are unattested documents and therefore inadmissible.

The following letters from the Excise Commissioner in Mysore, relating to the claim to the toddy revenue of Udabur Kayamgutta village, Mysore Taluk:—

1. No. 4571-239, dated the 7th February 1903.
2. No. 4342, dated the 31st May 1907.

No. FL. 6461-3—S. R. 52-02, DATED BANGALORE, 11TH JUNE 1908.

ORDER THEREON.—The sannad does not expressly concede the toddy excise revenue and the Inam Settlement actually reserves it to Government. The Excise Commissioner was in his first letter read above of opinion that the Inamdar was not entitled to the toddy excise revenue.

2. On a further consideration of the question of the extent of rights conceded by the sannad to the Inamdar in the light of additional evidence adduced by him, the Excise Commissioner is of opinion that as according to the Kulwar Chitta of 1827-28, the beriz of the village includes an item of three varahas under "Ichalpairu," a term which may in his opinion be construed to mean excise revenue from toddy, the Inamdar is entitled to toddy excise.

3. On an examination of the chitta accounts produced by the Inamdar with reference to the consolidated account of the whole taluk for some years before and after 1830, it is found that toddy revenue was included in "Baje Bab" and no revenue was shown under this item against "Kayamgutta villages." The entry of three varahas in the Chitta accounts cannot therefore be sufficient evidence of the alienation of this item of revenue to the Inamdar.

4. On the other hand on a consideration of the several documents produced by the Inamdar in support of his claim, Government (agreeing with the Excise Commissioner) are of opinion that there has been long continued enjoyment of toddy revenue though unauthorizedly and that the case is one deserving of special treatment under Rule 20 of Government Order No. 2074-83—R. F. 166-92, dated the 2nd August 1901.

5. In accordance with the principle underlying the late Chief Commissioner's Proceedings No. 3697—Rev. 30, dated the 8th October 1873, the toddy excise revenue will therefore be allowed in full to the present proprietor of the village and in one moiety to his successor in title after whom it shall lapse to Government.

6. The village has both a grove and a shop and the payment of revenue will be regulated by Rules 2, 5 and 9 of the Government Order of the 2nd August 1901 referred to above.

Letter No. 10459, dated the 22nd May 1908, from the Excise Commissioner in Mysore, submitting the records of enquiry relating to the inamdar's claim to the toddy excise revenue of Jodi Ajjappalli, Kolar Taluk.

NO. FL. 6729-30—S. R. 243-07-2, DATED BANGALORE, 24TH JUNE 1908.

ORDER THEREON.—The village of Ajjappalli in the Huthur Hobli of the Kolar Taluk was granted under a takeed issued by Dewan Poorniah in 1810 to one Desakulakarni Somappa on Jodi tenure. The present inamdar who was unable to produce the original takeed before the investigation officer Mr. Abdul Aziz, admitted that there is no mention of 'Sendi' in the document alienating the village. At the Inam Settlement conducted in 1880, the item of abkari revenue was expressly reserved to Government. Further, it appears from the papers on record that there were no date trees at the time when the village was conceded to the original grantee, but that such trees were planted thereafter by one of the subsequent holders. The few gutta chits produced by the inamdar and the Deputy Superintendent's Order No. 15 of the 11th June 1865 conclusively prove that what the inamdar was all along enjoying was the rent from the date trees and not the excise revenue from toddy. The village contains only a grove and no toddy shop.

2. In these circumstances Government hold that the inamdar is entitled to nothing beyond one-fifth of the grove farm rent for the years 1892-1897.

3. It is observed that some Court-fee labels affixed to the documents in the record received from the Excise Commissioner have not been punched according to rule.

The following reports from the District Magistrates on the working of the Factories Regulation and the Rules framed thereunder in their districts during the calendar year 1907 :—

(1) Letters No. 384—S, dated the 26th March 1908, from the District Magistrate, Hassan, and No. 557, dated the 20th April 1908, from the District Magistrate, Tumkur, stating that there were no factories in their districts during the year 1907.

(2) Letters No. 439, dated the 8th April 1908, and No. 453-39, dated the 21st idem, from the District Magistrates of Kadur and Shimoga respectively, stating that there were during the year 1907 no factories in their districts which came under the scope of the Factories Regulation.

(3) Letter No. 6170—289, dated the 7th April 1908, from the District Magistrate, Kolar, stating that the factory known as Sugar Factory at Goribidnur ceased to work from the 25th April 1907, owing to the failure of Messrs. Arbuthnot & Co., the owners thereof, that the factory building and machinery therein are kept in the custody of a care-taker and a few servants and that there were no other factories which came within the purview of the Factories Regulation.

(4) Letter No. 517, dated the 13th April 1908, from the District Magistrate, Bangalore :—

In pursuance of Government Order No. 853-69—J. of the 29th October 1903, I have the honor to submit the report on the working of the Mysore Factories Regulation, IV of 1892, and the Rules thereunder for the calendar year 1907.

1. There exist only two mills in the City, falling under the Regulation. (1) The Bangalore Woollen, Cotton and Silk Mills Company, Limited, and (2) the Mysore Spinning and Manufacturing Company, Limited, and these are situated in the same premises as in the previous year, *i.e.*, the former on the Agraharam road and the latter on the Tumkur road and the management of the mills are under the same Agents as reported in the last year.

2. The registers prescribed under the Regulation are maintained and brought up to date in both the mills and notices in English and Kannada are posted at the entrance of the premises, showing the working hours of the operatives.

3. The sanitary arrangements made in the Woollen Mills are not so satisfactory as in the Mysore Spinning and Manufacturing Company. There was a lot of rubbish in the yard when I inspected the Mills and the Manager has been instructed to give his special attention for keeping the premises in a good sanitary condition and make a report to this office for having done so. Two 1" bore taps have been provided within the premises for drinking purposes in the Binny Mills, whereas in the other mill drinking water is got from a public fountain at a distance of one hundred yards from the premises. The Agent was once asked to have taps introduced within the premises and this has not been carried out as yet. He has again been reminded in the matter. As for washing purposes, tank water is used in both the mills.

4. Proper arrangements are made for the removal of the night-soil in the mills.

5. There is sufficient means of exits for the operatives to clear out in the case of fire in both the mills. A fire engine with buckets, etc., is kept in the Mysore Spinning and Manufacturing Company, Limited, and fire escapes, four in number, have been provided in the Binny Mills to quench fire, if there should be any in any portion of the mill.

6. Whitewashing of the Spinning Company premises was commenced two months ago and is likely to be completed by the end of the current month. The premises of the Binny Mills were whitewashed in September last. The machinery and mill gearing have been properly fenced and protected.

7. From the accompanying statement, it will be seen that the dailyaverage number of operatives was 1,016 in the former mills and 706 in the latter during the year under report, as against 1,057 and 747 respectively, in the previous year. This number includes adults and children of both the sexes. The workmen were found to be healthy in both the mills. Children under nine years are not employed and such of them as are more than nine years seem to have all been examined by the certifying Surgeon. A General Register is maintained in which all the particulars of children are noted down and the certifying Surgeon's signature is taken therein. The certifying Surgeon is sent for whenever new admissions are to be made. The working hour of the mills is from 6 A.M. to 6 P.M., with half an hour's rest in the midday for males and about an hour for females and children. Children are not allowed to clean the machinery. They are not over-worked in the former

Not printed

mills, but in the latter they are made to work more than the limited number of hours. This fact was observed last year and the Agents were instructed to discontinue the same. It is to be regretted that the instructions were not carried out till now and the Manager has once more strictly been asked to adhere to the rules in future. The school attached to the Binny Mills consists of about 150 children and 28 were present when I inspected. It would appear that some chidren attend in the morning and some in the afternoon. The school seems to be working satisfactorily.

8. The mills are not worked on Sundays and also on General and Hindu Holidays. But when a holiday is given on any week day, the mills are closed that day, working on the next Sunday in exchange.

9. Binny Mills are worked with electricity and the quantity of the power used is about 500 Normal Horse Power and the other mills with steam, the quantity of the power used being 500 Normal Horse Power. On account of the carelessness of workmen themselves, there were three accidents in the former mills and four in the latter mills during the year and consequently no prosecutions were instituted for breach of the Rules.

10. Both the mills are stated to be in a prosperous state. The Flour Mill which is one of the Departments of Mysore Spinning and Manufacturing Company, Limited, is also stated to be a paying concern.

(5) Letter No. 645, dated the 14th April 1908, from the District Magistrate, Mysore :—

I have the honor to submit herewith the following report for the calendar year 1907 on the working of the Mysore Factories Regulation of 1892 and the Rules framed thereunder :—

There is only one factory in this District registered under Rule 4 from the 1st day of April 1906, *viz.*, Matheson's works at Hunsur. There are three departments in the factory, which are (1) coffee curing, (2) manure crushing and (3) saw mills. This factory is situated on the right bank of the Lakshmantirtha Katte or river in Hunsur and on the left side of the road leading to Coorg. The mills are located in a large and spacious building with good ventilators and windows affording free circulation of air and sufficient light to the coolies working in the mills. The coffee mills are worked by a steam engine with two boilers and the strengh of the same is thirty Normal Horse Power. Three processes are carried on in the coffee mills, firstly, drying of coffee in the plastered open yard, secondly, the removal of husk in the peeler by means of two rollers working in circular motion. Thirdly, after the husk is removed, the coffee is taken to the garbling room where the bad seeds are removed and the picked coffee is packed in bags and sent to the various parts in India and other countries. A portion of coffee is retained at these works for roasting and tinning purposes. Females are mostly employed in sorting and frying coffee seeds. The roasted coffee is powdered by machinery and then tinned.

In manure crushing, two machines are employed and the belts are all underground and there is no chance of coolies getting caught in them. The manures consist of different kinds, such as bones and poonacs or oil-cakes, etc. They are crushed in these, machined sized, bagged and sent to the Coffee Plantations in Coorg and Mysore. Men, women, girls and boys, are all employed in this department.

The saw mills are driven from the main shaft through a counter shaft. All the pulleys and belts of the machine being underground and covered, persons employed there are safe and out of danger as they do not come in contact with them. Only male coolies are employed in the working of this machine comprising of frame and circular saws and planers. All kinds of timber coming from Coorg and Mysore Forests are sawn in this department.

The daily average attendance of operatives are males 30, females 18, children 15, total 63 and ten boys between 12 and 16 and five girls aged between 11 and 14 years are given light work and are paid the wages of children. The working hours are from 7 A.M. to 12 A.M., and from 1 P.M. to 5 P.M. A leisure of one hour is allowed at midday. The mills are not worked on Sundays and feast days and also for two hours on sante days, *i.e.*, Thursdays. There are sufficient means of exits for the working men to get out in case of fire and a water pump is ready for use in case of emergency and men have been trained in the use of the same ; drinking water is good filtered and supplied through three taps. Separate suitable latrines, two for males and two for females, have been provided and proper arrangements made for conserving these. They are also disinfected twice a week with phenyl lotion.

The belts of machinery are underground and the iron rollers and machinery that are on the surface are suitably fenced off to prevent accidents.

No accidents occurred during the year under report, and there have been no convictions or prosecutions for breach of the rules. The Civil Surgeon and the District Medical and Sanitary officer who inspected the factory on the 5th of August 1907 reports that he found everything satisfactory.

Judicial and Legislative (Legislation), dated 17th June 1908.

There were some cases of slight wounds and particles of dust and iron filings lodging in the eyes of the operatives, and the attention of the Manager of the factory has been drawn to them with a view to take measures to guard against such happenings in future as far as possible. The operatives are healthy and the sanitary condition of the factory is good.

Women are employed in the coffee mills for garbling, drying, storing and frying coffee and in manure crushing for carrying bones and oil-cakes in baskets. Children do sweeping and cleaning work in the premises. No boy or girl below the age of nine years is employed in the factory.

The Apothecary of the place visits the work twice a week and gives needful instructions. The Senior Assistant Commissioner in charge of the Division comprising the taluk reports that he was not able to inspect the factory when he had gone to Hunsur on circuit as there was plague there at the time.

The Amildar has inspected the factory and has submitted his report also. The average attendance of operatives during the year 1907, as shown in the appended statement was only 63 as against 123 during 1906. The Manager of the factory has been asked to furnish information as to reason of decrease in the number of the operatives employed during the year under report. As soon as his reply is received, the same will be submitted to Government for information.

(6) Letter No. 479, dated the 30th April 1908, from the District Magistrate, Chitaldrug, stating that none of the three existing factories in the district comes under the scope of Section 2 of the Factories Regulation, and that he intends making a separate recommendation to Government under Section 20 of the Regulation to bring all these under the term "Factory" as defined in Section 2 thereof.

No. J. 3762-69—Legis. 31-07-9, dated Bangalore, 17th June 1908.

Order thereon.—Recorded with the remark that none of the reports was received in due time, *viz.*, the 1st March 1908.

2. The District Magistrate of Bangalore states that in the Mysore Spinning and Manufacturing Company, Limited, children are still worked overtime; that the instructions given to the Manager of the factory to discontinue the practice have not been carried out yet and that he has again been asked to adhere strictly to the rules in future. The District Magistrate will watch the result. Government observe that the interval allowed for women in the mills reported upon is less than that prescribed by Section 6 of the Regulation. As laid down thereunder these should be given rest for an hour and half.

3. The District Magistrate, Chitaldrug, reports that he intends submitting a separate recommendation for declaring certain premises as factories for the purposes of "the Factories Regulation." His recommendation in the matter will be awaited.

Letter No. 3443, dated the 8th May 1908, from the Chief Inspector of Explosives in Mysore, forwarding a report on the working of the Explosives Regulation for the year 1907.

No. J. 3882-90—LEGIS. 32-07-3, DATED BANGALORE, 30TH JUNE 1908.

ORDER THEREON.—Dr. Smeeth was in charge of the office of the Chief Inspector of Explosives till the 16th October 1907 and Mr. A. T. Setlur during the rest of the year.

2. The total number of licenses issued by Government in the Geological Department and by District Magistrates during the whole year was 186 against 163 in the previous year. Government note the observations of the Chief Inspector with regard to the forms of the licenses, and await his further proposals for their revision.

3. The inspection work done by the Chief Inspector was satisfactory, but as remarked in connection with the report for the previous year, the inspection by the District Magistrates and the Police was not systematic or as frequent as is desirable. Though the number of inspections was greater than in the previous year, *viz.*, 490 against 380, the separate premises inspected were only 115 out of a total of 175. Too much stress cannot be laid on the necessity for the inspection of all licensed premises by the District Magistrates and the Police periodically and systematically at least once a year. The attention of District Magistrates and other licensing officers is also invited to the desirability of a stricter enforcement of the rules about the storage of explosives, as suggested in para 6 of the report.

4. The only accidents from explosives were those in mines in the Kolar Gold Fields and one in the Hagalvadi village in the Gubbi Taluk arising out of the manufacture of firework composition. In the Kolar Gold Fields, there were 15 accidents, involving fatal injuries to 13 persons and serious injuries to 17 persons, as against 17 cases in 1906, causing 10 deaths and serious injuries to 21 persons; of these accidents, 4 were classed as unavoidable, 3 due to the recklessness of the blasters who were themselves killed and in the remaining 9 cases, 15 persons were prosecuted, with the result that 11 were convicted, one was acquitted, 2 absconded and the prosecution was withdrawn against the remaining one.

5. Fourteen prosecutions involving 15 persons were instituted during the year for illegal possession and manufacture of explosives, of which 9 resulted in the conviction of the accused, 1 in discharge and 4 in acquittals.

6. The question of investing the Geological Department with the power of issuing non-objection certificates and transport licenses as required under the Arms Regulation and Rules for the transport of explosives from magazines licensed by Government under Form E is engaging the consideration of Government and orders will be passed thereon separately in due course. The attention of District Magistrates will be invited to para 9 of the report and they will be requested to see that non-objection certificates are granted with as little delay as possible.

Letter No. 231, dated the 14th May 1908, from the Registrar of the Joint Stock Companies in Mysore, submitting statistics relating to the Joint Stock Companies and Co-operative Societies working in the State during the year ending the 31st March 1908, under the Mysore Companies Regulation, III of 1895, and the Mysore Co-operative Societies Regulation, III of 1905, respectively.

No. J. 3755—REGIS. 43-07-2, DATED BANGALORE, 16TH JUNE 1908.

ORDER THEREON.—Six new Joint Stock Companies and 11 Co-operative Societies were registered and 3 of each were wound up during the year under report. There were thus 116 Joint Stock Companies and 24 Co-operative Societies working at the end of the year against 113 of the former and 16 of the latter working at the end of the previous year, respectively. Of the 6 new Companies registered, 2 were Banking Companies, 1 was a Weaving Company, 1 was a Fruit Syndicate and the remaining 2 were Mining Companies; and of the 11 Co-operative Societies registered, 2 were purely agricultural, 3 were agricultural and industrial, 2 were for dealing in stores and provisions, 1 for banking, 2 for the benefit of weavers and the remaining one for dealing purely in grain.

2. Owing to the registration of 6 new Companies with nominal and paid-up capitals of Rs. 23,30,000 and Rs. 11,96,368, respectively, and to the increase effected in these capitals by 14 of the original Companies, the nominal and paid-up capitals of the Companies increased from Rs. 59,30,000 and Rs. 21,69,006 in the previous year to Rs. 85,65,100 and Rs. 41,20,310, respectively, at the end of the year under report. The nominal and paid-up capitals of the Co-operative Societies also increased, for the like reason, from Rs. 2,56,000 and Rs. 22,198 to Rs. 3,30,000 and Rs. 48,832 respectively. The number of documents registered and filed also increased from 300 to 330 and the receipts therefrom from Rs. 1,409-12-0 to Rs. 2,067-8-0.

3. Out of the 116 Companies, only 28 were inspected during the year under report, 12 by the Registrar of Joint Stock Companies and the rest by Special Sub-Registrars, who have been empowered to do so. The inspection work of the Companies was not on the whole satisfactory.

Letter No. 12494, dated the 13th May 1908, from the Revenue Commissioner in Mysore, submitting a copy of letter No. 624, dated the 5th May 1908, together with its enclosures in original, from the Deputy Commissioner, Chitaldrug District, reporting on the cattle show held in Nandigudi village, Harihar Sub-Taluk, on the 16th and 17th March 1908 and stating that the judging of the cattle for prizes, etc., by the votes of raiyats is an ingenious departure, that the results have been very hopeful and that the new lines on which the show was managed deserve to be developed.

I have the honor to submit herewith for the information of Government, a copy of letter No. 624, dated 5—6th May 1908, together with its enclosures in original, from the Deputy Commissioner, Chitaldrug District, submitting a report on the cattle and agricultural show held in Nandigudi village, Harihar Sub-Taluk, on 16th and 17th March 1908, and to state that it has had a very good beginning.

The judging of cattle by the votes of the raiyats is an ingenious departure and the results have been very hopeful. The new lines on which the show was managed deserve to be developed.

Letter No. 624, dated 5—6th May 1908, from the Deputy Commissioner, Chitaldrug District, to the Revenue Commissioner in Mysore.

Adverting to the Proceedings of Government No. 8810-11—L. B. 292-07-2, dated 3rd March 1908, declining to sanction funds for the holding of a cattle show at Nandigudi village of the Harihar Sub-Taluk, I have the honor to state that on the receipt of the above, orders were issued to the Deputy Amildar to stop all further proceedings in connection with it and the same was given wide publication in all the villages of the Sub-Taluk. But some of the more intelligent and leading raiyats of the neighbouring villages, being desirous of conducting the show by means of private subscriptions raised among themselves, applied for permission to have the show. Under the authority of your docket No. 7979, dated 30th January 1908, in which it was stated that there would be no objection for the holding of the show, if no funds were required from Government, permission was granted. They convened a meeting on 7th March 1908 with Mr. Basava Lingappa, patel of Kokkanur, as the President and sent me a copy of their resolution requesting me to be present on the occasion. I accordingly visited the jatra on the 17th March 1908, the day appointed for the show, and went to the reception pendal where the agricultural products of the Sub-Taluk had also been arranged for exhibition. In the maidan before the pendal, 67 pairs of cattle including bulls, cows, he and she buffaloes, rams and goats of different breeds which had been specially selected for the show by the Committee from among 6,000 cattle collected at the jatra, had been arranged in rows on both sides of the pathway leading to the pendal and the sight of so many well-bred animals was very lovely and imposing. Before declaring the show open, I made a short speech to the large number of raiyats assembled on the necessity and importance of paying particular attention to the proper breeding of cattle which forms the chief source of their agricultural prosperity. As there was some misapprehension among the ignorant and less intelligent raiyats as to the object of such shows, I had to disabuse from their minds of the erroneous impression that such shows were held and prizes awarded in order to collect statistics for levying additional taxation in the near future. This year's experience clearly shows that under proper guidance, such shows may be organized without any Government help in prosperous times.

2. The novel feature of this show was that the selection of cattle for prizes was not made by judges appointed for the purpose, but slips in the form marked A (which is enclosed herein), were distributed among the representatives of the villagers that contributed towards the expenses of the show, for recording their opinion as to the cattle that deserved the award of prizes. This procedure commended itself to the villagers and prizes were accordingly distributed to the satisfaction of the large gathering that assembled there, to such of the cattle as secured the highest number of votes.

3. Before the distribution of the prizes, lectures were delivered in Kanarese to the raiyats assembled, on different kinds of manure and the advantages of improved ploughs and water lifts and the different kinds of diseases that cattle are subjected to and the precautionary measures to be adopted for the same, etc.

4. Statements showing the particulars of cattle and agricultural products for which prizes and certificates of merit were awarded, are herewith submitted for information.

5. As the people in these parts of the district are not accustomed to the use of improved ploughs, this opportunity was taken advantage of and an iron plough to be drawn by 4 bullocks taken from Chitaldrug was also exhibited and actually worked. Whereupon, some of the raiyats expressed a desire to go in for the same. I have left it with the Deputy Amildar with instructions to actually work the plough on sante days at Harihar for some weeks as this plough was pronounced by some experienced raiyats as well suited for this part of the district.

6. A handy machine from Bombay for cutting jola sticks into small pieces was also exhibited and worked. By the use of this machine, it was shown to the public that great economy can be practised and enormous waste of these sticks prevented.

7. In conclusion, I beg to say that the arrangements made by the Deputy Amildar for the show were excellent and reflect great credit upon him.

8. The detailed report received from the Deputy Amildar on the subject is herewith submitted for information.

9. It may not be out of place to mention here that some of the leading residents of Harihar who had also come to witness the show expressed their desire of arranging for a show at Harihar on the occasion of Sri Harihareswarasawmi's car festival, in latter part of January 1909 by means of private subscriptions. A separate reference will be made on the subject later on.

Letter dated 8th April 1908, from the Deputy Amildar, Harihar, to the Deputy Commissioner, Chitaldrug.

I beg to submit the following report on the cattle show and agricultural exhibition held in Nandigudi village in the Hairhar Sub-Taluk on the 16th and 17th March 1908.

2. Nandigudi is a village in the Harihar Sub-Taluk about 14 miles from Harihar. It is situated on the bank of the Tungabhadra and contains a small temple dedicated to Sri Basavanna. The exquisite finish of the idol of Basavanna and the carvings in the stone work of the temple indicate its antiquity. The car festival in this temple usually takes place about the Ekadasi day of Phalguna Sudha every year and for some years past a cattle fair is being held during this jatra.

3. Last year I happened to camp in this village during the car festival and cattle fair and was struck with the large collection of cattle that gathered in this small village during the occasion. After I returned to head-quarters, I made a reference to the Deputy Commissioner recommending the constitution of a regular cattle show in this village every year during the said Basavanna jatra. On the Deputy Commissioner's kind orders and instructions I encouraged the patels and influential raiyats of the important villages round about Nandigudi to form themselves into a Committee and arrange for a cattle show and exhibition of agricultural products and implements of the Sub-Taluk during the year's car festival in Nandigudi, to serve as an object lesson and education to the ignorant raiyats and that they may award some prizes by collection of small subscriptions, as an encouragement to the exhibitors and by way of imparting stability to the annual cattle show in this village slowly rising to importance. As many of the villagers round about were devotees to the said Basavanna temple, they readily took up the suggestion and required no prompting to make the occasion a success. The influential raiyats and patels formed into a Committee and 25 villages of the Sub-Taluk readily responded to the call of the Committee and it was resolved that prizes ranging from Rs. 10 to Re. 0-8-0 be awarded, the higher prizes being reserved for the cattle and smaller prizes for the exhibits of agricultural products. A sum of Rs. 106-7-0 was collected, of which Rs. 74-2-0 were awarded as prizes and a sum of Rs. 32-5-0 was reserved for the incidental expenditures such as putting up the exhibition pendal, printing charges and stationery and other contingencies.

4. Due notice that prizes were intended to be awarded during this year was caused to be published in time and as the result of it, the attendance of cattle during the year's jatra was 25 per cent more than in the previous year. The total collection was about 6,000 heads of cattle consisting of various breeds and of prizes ranging from Rs. 70 to Rs. 400 a pair. One single bullock was sold for Rs. 245. Agricultural bullocks formed the main portion of the cattle and there were also a few heads of milking cows, breeding bulls, he and she buffaloes, sheep and goats.

5. The selection of the cattle for prizes was not made by appointment of select judges. As the amount collected formed the voluntary contributions from 25 villages of the Sub-Taluk, it was suggested that it may afford as a wholesome encouragement to the subscribers and at the same time act as an incentive to other villagers to come forward with enthusiasm for such purposes, if a representative of every village that contributed should be allowed to take part in the selection of cattle for prizes. Accordingly cyclostyled slips in the form marked "A" were distributed to the leaders present of the villages that subscribed towards the un-

dertaking. This was acceptable to all the villagers and the prizes were awarded for the heasd of cattle that secured the highest number of votes thus polled.

6. Sixteen prizes for cattle aggregating to Rs. 58 were awarded on the following scale:—

9. Double bodied cow with 6 feet, 2 separate tails and 2 different organs of excretion with a single head, 1 prize of Rs. 3					...	...	3
					Total ...		58

7. The bullocks that were presented in the show consisted of different breeds popularly known as Javari, Hatti, Dojina, Korachar and Yokavi, etc. These were brought from the villages of Honnali, Channagiri, Shikarpur, Ranibennur, Koda, Davangere and Holalkere Taluks, besides the local ones of Harihar Sub-Taluk.

8. The collection of cattle commenced from the 14th of March 1908 and the show ground was full on the 16th and 17th idems. The ground covered by the cattle may be roughly stated to be half a square mile in the vicinity of the temple. The water in the Tungabhadra, running close by, afforded great facility for watering the cattle. The owners had made their own arrangement for fodder of which there was plenty for sale.

9. The exhibition of the agricultural products and implements was arranged in a decorated pendal erected close to the temple.

10. On the request of the members of the Committee, the Deputy Commissioner Mr. Chengiah Chetty, and Mr. Mahomed Raza, Sub-Division Officer, Davangere, graced the occasion with their presence. On the unanimous request and solicitation of the whole gathering of raiyats, the Deputy Commissioner was pleased to preside both on the occasion of the opening ceremony that took place on the 17th morning and on the occasion of the distribution of prizes on the same evening from 4 to 6 P.M.

11. Some of the important residents of Harihar, members of the Municipal and Taluk Boards and Representative Assembly were present on the occasion. An address of the Committee and 3 addresses from the raiyats were read during the opening ceremony and in the evening 3 lectures in Kanarese were delivered to the assembled raiyats on the nature and utility of manure, the advantages arising and the purposes intended by constituting agricultural exhibition and cattle show, the desirability of having recourse to the improved ploughs and waterlifts.

12. The Deputy Commissioner arrived at 10 A.M. on the 17th March 1908 at the exhibition pendal in front of which the best collection of the cattle from which the selection was to be made for prizes, had been arranged in 2 rows. The Deputy Commissioner examined each head of cattle and was much pleased with the breed and size of the bullocks, the opening of the cattle show and exhibition being over at 11 A.M. Slips were distributed for the selection of bullocks for prizes and were collected in the afternoon.

13. The head of cattle entitled to receive the prizes were determined on the highest number of votes secured and these were arranged in a row opposite the pendal in the evening and after delivery of lectures as above said, the prizes were given away by the Deputy Commissioner.

14. The annexed statements Nos. 3 and 4 give the details of the number, nature, etc., of the agricultural products and implements exhibited and the prizes awarded for the same.

15. Besides the above, certain fancy articles of handy crafts as well as the mineral products of the Sub-Taluk were exhibited and certificates of honorable mention were awarded to these exhibitors.

16. Besides money prizes to the exhibitors of agricultural products, several certificates of honorable mention were awarded. A sample of the certificate form is also enclosed. The money prizes awarded for the agricultural products amounted to Rs. 16-2-0.

17. The list of the best bullocks paraded in front of the exhibition pendal with details of the owners and other particulars is annexed. (Statement No. 1.)

18. In conclusion, I beg to state that from the 2 years' personal inspection of the collection of cattle on the occasion of the said Sri Basavanna jatra in Nandigudi, I consider that the recognition of this cattle show as a permanent institution and a provision for prizes either by levy of small fees or a fixed Government grant from the Provincial or District Funds are highly desirable in view to popularize the show, to improve the breed of cattle and afford facilities to the raiyats for purchasing and exchanging cattle.

19. The following statements affording full particulars are annexed to the report.

(1). Statement showing the particulars of cattle which were sorted from the collection as fit for selection for prizes and paraded for inspection.

(2). Statement showing the particulars of the cattle for which prizes were awarded on selection by the Committee.

(3). Statement showing the details of prizes awarded to the agricultural products, etc., exhibited.

(4). Statement showing the details of agricultural products exhibited.

(5). Statement showing the details of subscriptions collected by the Committee for the exhibition.

Proceedings of the Government of His Highness the Maharaja of Mysore,

3. *Expenditure.—A. Public works.*—The sum of Rs. 70,000 provided to meet the cost of works included in the list received from the Chief Engineer is raised to Rs. 97,647 so as to include the sum of Rs. 27,647 referred to in the Chief Engineer's letter No. 3159, dated 8th May 1908, read above.

4. *B. Contribution to works.*—Though it was directed in Government Order No. 7383-97—L. B. 269-07-4, dated 28th January 1908, that the aggregate cost of works to be executed by the Revenue Department should not exceed the maximum limit of Rs. 12,000, the Presidents of the several District Boards, whose financial condition is not satisfactory, have submitted proposals for a grant of Rs. 27,901 to meet the cost of works detailed in the enclosed statement. The charges of repairs to roads and Cattle-pounds which should properly be met from the District Funds will be disallowed and a grant of Rs. 24,631 will be sanctioned as a special case, with the observation that District Boards should in future make applications for excess grants only under very exceptional circumstances.

5. *C. Civil charges.*—As regards the Revenue Commissioner's proposal to provide Rs. 26,250 on account of the marginally noted items, Government are constrained, in view to maintaining the financial equilibrium of the fund, to omit the item in regard to experiments in sugar industry. The estimate will accordingly be reduced to Rs. 11,250.

1.	Dasara Exhibition	Rs 9,000
2.	Grants to District Agricultural Associations	,, 750
3.	Agricultural Scholarships	,, 1,000

Government order No. 6862-8—Ml. 77-07-6, dated the 17th January 1908, abolishing the separate office of the Chairman of the Board of Trustees for the Improvement of the City of Mysore and appointing the Deputy Commissioner *Ex-officio* Chairman.

2. Correspondence ending with letter No. 683, dated the 18th March 1908, from the Chairman of the Board of Trustees, regarding the reduction of establishment ordered in para 3 of the above Government order.

3. Letters Nos. 702, dated 30th April 1908, and 715, dated the 11th May 1908, from the same officer, *re* T. G. Subba Rao, Cashier and Accountant of the Office the Executive Engineer of the City of Mysore Improvements Division.

4. Letter No. 712 dated the 7th May 1908, from the same officer, *re* G. N. Madhava Rao, Manager of the Chairman's Office.

No. 12581-3—ML. 77-07-18, DATED BANGALORE, 1ST JUNE 1908.

ORDER THEREON.—With reference to the reduction of establishments working under the Board of Trustees ordered by Government in the order read above, the Chairman proposes the following modifications:—

(i) Retention of the Deputy clerk's post on Rs. 35 in the Chairman's office and the abolition of the post of third clerk of that office on Rs. 30 instead.

(ii) The reduction of pay of the Cashier of the Chairman's office (or present Cashier and Accountant of the Executive Engineer's office) from Rs. 40-50 to Rs. 40.

(iii) The retention of the clerk on Rs. 15 entertained in the Mysore District Treasury on account of the transactions of the Board of Trustees.

(iv) The appointment of Mahomed Thayer, a Sub-Overseer on Rs. 35+15, who is now to be thrown out, as Surveyor on his present salary, the salary for a Surveyor according to the sanctioned scale being only Rs. 25 to Rs. 30+15.

These proposals are sanctioned with the remark that the excess of Rs. 5 over the scale of pay for a surveyor now sanctioned for Mahomed Thayer should be treated as personal allowance.

2. It is understood that the services of those officials who were temporarily entertained under the Board and who were affected by the order of the 17th January 1908, were dispensed with from the 1st April 1908. Of the officials holding permanent appointments in other offices and lent to the Board who are affected by the above said order the Chairman proposes to retain G. N. Madhava Rao, Manager of his office as a supernumerary in his office till he is otherwise provided for and to revert T. G. Subba Rao to the Public Works Department. Government are not in favour of retaining G. N. Madhava Rao as a supernumerary in the Chairman's office and direct that he be attached to the office of the Revenue Commissioner in Mysore. The Revenue Commissioner is requested to absorb him at the earliest opportunity on a pay between Rs. 70 and 100, the excess required to bring up the pay to Rs. 100 if he is given an appointment on less than Rs. 100 being treated as personal allowance.

3. As the pay of the post of the Cashier of the Chairman's office held by T. G. Subba Rao has now been ordered to be reduced from Rs. 50 to Rs. 40, and as no suitable place can, it is reported be found for him in the Public Works Department, the Revenue Commissioner is requested to appoint him as a Taluk Sheristadar on Rs. 50 if he has passed the qualifying tests.

4. The retention of Mr. H. F. Marker, as Sub-Division Officer and the employment in the Chairman's Office of the two clerks on Rs. 25 of the abolished two Sub-Divisions are also approved.

3. Government Proceedings No. 8503-4—Med. 222-06-8, dated the 27th February 1908, sanctioning increases of pay as shown in the margin to the peons and coolies of the Civil Hospital, Shimoga, pending the issue of orders on the general question of the revision of the establishment of peons and coolies of the several Head-quarter Hospitals.

No. 12822-3—MED. 83-06-23, DATED BANGALORE, 8TH JUNE 1908.

ORDER THEREON.—Government observe that the lengthy and protracted correspondence on the subject of the revision of the establishment of peons and coolies of the several Head-quarter Hospitals is the outcome of a misapprehension on the part of the Senior Surgeon's office of the instructions conveyed in this office docket No. 10634—Med. 115-04-9, dated the 17th May 1905. It will appear from the papers read above that uniformity in the scale of peons and coolies which it was the object of the instructions referred to in the docket dated the 17th May 1905 to secure, is not possible owing to varying local conditions and requirements of the several institutions.

2. As the pay of Rs. 5 allowed to the coolies in some of the Hospitals is in the present state of things exceedingly low, an increase of one rupee may be allowed to such of the coolies in the several Hospitals as are now in receipt of Rs. 5 per mensem, the total number of coolies being slightly reduced as shown in the appended statement.

3. Government agree with the Senior Surgeon as to the necessity of a separate establishment to the District Medical and Sanitary Officer, Bangalore District, and accordingly sanction to that officer one clerk on Rs. 20 per mensem and one instead of two peons, on Rs. 7 a month.

4. The Medical Officer in charge of the Victoria Hospital has been till now allowed to utilize the services of two peons on Rs. 6 and Rs. 7 a month respectively borne on the establishment of the Durbar Physician in Mysore, the latter office being vacant for the time being. In view of the necessity of a menial establishment for duty under the Medical Officer in charge of the Victoria Hospital, one Dafedar on Rs. 9 and a peon on Rs. 8 per mensem are hereby sanctioned to that officer, the two peons now working under him being withdrawn.

5. Taking into consideration the number of beds available in the several Hospitals and the average number of in-patients admitted into them and also the importance of the Head-quarters of districts, Government consider that for each of the Civil Hospitals at Kolar, Tumkur, Chitaldrug and Hassan one peon

and two coolies are sufficient. The other Hospitals obviously require a slightly larger staff. For the Chikmagalur and Shimoga Hospitals having two Gazetted Officers the provision of two peons seems necessary. There are three Hospital coolies in each of these places and as it is represented by the District Medical and Sanitary Officer, Shimoga District, that the number of coolies in the Hospital is considered inadequate to cope with the work, one cooly may be withdrawn from Chikmagalur and sent to the Shimoga Civil Hospital.

6. In supersession of all previous orders of Government regulating the establishment of peons and coolies of the several Head-quarter Hospitals except the General Hospital, Mysore, Victoria Hospital, Bangalore, and Kolar Gold Fields Civil Hospital, a revised scale of establishment as shown in the appended statement is sanctioned indicating therein the establishments sanctioned for the District Medical and Sanitary Officer and the Medical Officer in charge of the Victoria Hospital. The revision now sanctioned involves a net increase in cost of Rs. 3 per mensem, which may be met during the current year from the savings referred to in para 8 *infra.*

7. The Senior Surgeon is requested to give immediate effect to the scale sanctioned in the statement referred to in para 6 *supra* and submit to Government a statement showing the dates from which the revised scale of establishment of peons and coolies and the entertainment of new hands sanctioned will take effect.

8. The services of the clerk on Rs. 15 per mensem entertained for the office of the District Medical and Sanitary Officer, Bangalore District, on the 3rd April and dispensed with on the 16th November 1907, will be regarded as temporary and the pay of the individual concerned may be disbursed to him, the charge being met from the provision in the current year's Medical budget on account of the diet of patients of the Shimoga Civil Hospital in which savings are reported to be anticipated.

9. The extra charges so far incurred by the Senior Surgeon in excess of the scale of establishment now sanctioned under a misapprehension that the suggestion made in this office docket of the 17th May 1905 was an order of Government, are sanctioned as a special case and the same will be met from the savings referred to in para 8.

10. Government take this opportunity to impress on the Senior Surgeon the confusion in accounts that will ensue in consequence of interference with the sanctioned scales of establishments without the express orders of Government and hope that a recurrence of irregularities of the kind under advertance will be carefully guarded against in future.

The report on the working of the Hospitals and Dispensaries in Mysore for the year 1907, received with the Officiating Senior Surgeon's letter No. G. 648, dated 4th May 1908.

No. 13706-7—MED. 229-07-4, DATED BANGALORE, 30TH JUNE 1908.

ORDER THEREON.—Recorded.

2. A Local Fund Dispensary was newly opened during the year at Anantapur in the Shimoga District, the number of Local Fund Dispensaries in the State being thereby raised from 147 to 148 at the close of the year. The total number of patients treated in the State Public Institutions (except the Special Hospitals) and the Local Fund and the Private Aided Dispensaries was 1,120,395 as against 1,190,756 in 1906, of whom 10,248 were in-door and 1,110,147 out-door patients against 10,400 and 1,180,356, respectively in the year previous. Of the total number of patients treated during the year, 534,050 were men, 242,438 women and 343,907 children as against 555,154, 250,804 and 384,798, respectively, in 1906. The number of deaths among the in-door patients was 673 against 689 in the previous year.

3. The number of cases treated during the year for cholera and small-pox was 1,410 and 313 against 2,197 and 372 in the preceding year, showing a decrease of 787 and 59, respectively.

4. The patients who underwent surgical operations during the year numbered 23,093 against 23,609 in the previous year, the number of patients on whom major operations were performed being 1,519. The number of operations performed in the Victoria Hospital, Bangalore, *viz.*, 774, was more than the number of operations performed in all the districts put together.

5. There were 96 midwives at work against 95 in the previous year and they attended 5,490 cases as against 5,916 cases in 1906.

6. The total expenditure of the Department amounted to Rs. 3,93,281 as against Rs. 4,23,261 in the preceding year.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Letter No. 4778, dated the 30th May 1908, from the Sanitary Commissioner in Mysore, forwarding, with reference to para 3 of Government Proceedings No. 5508-21—San. 108-07-2, dated the 10th December 1907, a copy of report on the results of well-boring in the Bombay Presidency by means of jumpers.

Adverting to para 3 of Government Proceedings No. 5508-21—San. 108-07-2, dated the 10th December 1907, directing that a suitable programme of providing drinking water to villages, based on the return of the special survey of the existing sources made by District authorities should be submitted to Government, I have the honor to forward herewith for information, copy of a very interesting report on the results of well-boring in Bombay and to suggest that similar experiments may be ordered to be carried out wherever they are likely to be of use in this State, in connection with the survey operations ordered by Government. The cost seems to be very moderate and the experiments, if found to be as successful in Mysore as they appear to have been in Bombay, mean a considerable saving to the District Fund Board as well as to Government. I am forwarding copies of the report in question to the Presidents of District Boards for information, recommending that similar experiments should be tried in their districts in connection with the question of the improvement of water-supply in villages.

ENCLOSURE (WELL-BORING IN BOMBAY).

Interesting papers have been issued by the Government of Bombay regarding jumper experiments in the sinking of wells in the Ahmednagar District which have been carried out under the directions of Mr. J. P. Orr, the Collector of the District. Mr. Orr, in the course of a lengthy letter analysing the result of the jumper experiments which were carried out in private wells at the expense of a grant made by Government in May, 1907, states:—

On receipt of the telegram announcing the grant on the 27th April, 1907, I ordered the Mamlatdars to make as many experiments as they could in the short time available, with the help of Abdul Aziz, the Local Board Sub-Overseer of Kopargaon, who had already acquired great experience in jumper experiments in public wells in his own Taluka. I summoned Abdul Aziz to my camp and gave him oral instructions but unfortunately I awaited the receipt of the Government Resolution before issuing formal orders as to his appointment. The Government Resolution did not reach me till the 27th May, 1907, when the working season was nearly over. Time was lost by this and other mischances and these adversely affected the outturn of work, and I hope for much better results if work is resumed with ample notice to all concerned next March and carried on throughout the hot weather with the aid of a fresh grant of Rs. 3,000 in 1908-09.

The results stated barely are 120 borings in 53 wells of 36 villages in 10 Talukas at a total cost of Rs. 452-12-0, exclusive of the special Sub-Overseer's pay Rs. 75 and Rs. 84-2-9 contingent charges. The wells treated may be classified according to the results thus:—(I) Those in which sufficient water came up through the bore to render deepening of the well unnecessary. (II) Those in which the supply of water that came up was at first sufficient for irrigation but subsequently diminished so that the well had to be deepened. (III) Those in which water was tapped at a workable depth but did not rise above the top of the bore, and which consequently had to be deepened. (IV) Those in which no water was tapped, the total number of wells being 53.

The average cost of boring was Re. 0-5-0 per foot, the average depth of a boring being 12 feet, 2 inches but the cost will be considerably reduced next season when the operations will be all under the special Sub-Overseer.

A SUCCESSFUL CAMPAIGN.

The operations of what may be called the "Jumper Campaign" commenced in the famine of 1905-06, when large special grants were made for improvement of water-supply; and to prevent waste of money in sinking wells without success it was made a general rule to refuse tagas, or a grant from the Water Works Funds, for deepening a well till the existence of water below the well had been proved by a jumper experiment. Jumpers were purchased by all Mamlatdars and freely lent for experiments in private wells, while in a few cases in Nevasa Taluka, the cost of such experiments was borne by the Local Board on the owner consenting to let the public have the free use of the well for drawing water for drinking. In 32 cases public wells were deepened with Government jumpers at private expense. The full results to date are 546 borings in 285 wells of 135 villages in 11 talukas at the total cost of Rs. 2,045-6-0 to public funds, besides 119 borings in 82 wells of 54 villages in 10 talukas, the cost of which having been borne by private persons is not fully known.

The degree of the success obtained may be roughly stated thus:—40 per cent, absolute failure, 23 per cent, brilliant success, and the remaining successes involving deepening of the wells. The average expenditure on each well varied from Rs. 7 in class I to Rs. 9-12-0 in class IV, the cost of boring being in each class about Re. 1 per 3¼ feet. If the whole cost in

Local Fund and Sanitary (Sanitary), dated 25th June 1908.

Kopargaon were spread over only those wells in which the water was tapped (classes) I, II and III), the average cost of boring per well would be about Rs. 17-4-0; to this should be added Re. 0-12-0 for steeling and sharpening, so if we undertake to find water at Rs. 18 per well we shall pay our way even if we agree to charge nothing where water is not tapped. For the whole district the distribution of the total cost of experiments over only successful wells gives an average incidence of about Rs. 16 per well, but I prefer to take the Kopargaon figure, as experiments have been conducted more systematically and on a far larger scale there than in any other talukas, and I have reason to believe that the full results for all unsuccessful wells have not been reported in all other talukas. In hilly tracts (Kopargaon has no hills), and in tracts in which there is much hard rock, the proportion of failures may be expected to be larger than in Kopargaon: so perhaps Rs. 20 per well would be the safest figure to adopt for the average of the district and it would probably do well enough (at any rate as a basis for a year's experiments) in the other Deccan Districts.

GOVERNMENT RESOLUTION.

Government in a resolution state:—"The thanks of Government are due to Mr. Orr for the great personal interest he has taken in these experiments. Copies of the report with accompaniments should be forwarded to all Collectors, with an intimation that Government trust that similar experiments will now be carried out wherever they are likely to be of use, especially in the Deccan and the Karnatic. Funds will be allotted for the purpose on the recommendations of the Commissioners."

"As regards the charges to be made to the cultivators for these borings, Government are pleased to direct that where water is tapped a standard charge of Re. 1 for each 3 feet of boring should be made (to be increased in any particular case in which the actual cost is much greater) and that for the present, until the system is more popularised, no charge should be made when water is not tapped, the cost being borne by Government. Cultivators should also be encouraged to apply for the loan of pumpers and do the boring at their own cost."

Correspondence ending with letter No. 7562—510, dated the 16th March 1908, from Inspector-General of Education in Mysore, submitting the Budget Estimates of the Indus and other Special Schools in Mysore for 1908-09 together with explanatory memo.

Memo on the Budget Estimates of the Industrial and other Special Schools in Mysore for the year 1908-09.

RECEIPTS.

I. Industrial School, Mysore.—The light tile press, the pug-mill, etc., ordered for school were received only in November 1907 and they will have to be worked hereafter. T outturn in the Pottery Section cannot therefore be exactly known until after the machi have been worked for a few months. Under the circumstances the receipts from the seve classes of the school are estimated at Rs. 17,000 against Rs. 27,600 sanctioned for 1907-08

II. Other Industrial Schools.—The actual amounts realized as sale proceeds from six schools coming under this head have fallen far short of the estimated receipts during t last three years chiefly on account of the prevalence of plague every year. It may take ye before the schools can become free from the effects of plague. For this reason the average round figures of the actual receipts for the last three years has been taken as estimated recei and the estimate of receipts is thereby reduced from Rs. 11,600 estimated in 1907-08 to Rs. 3,9 A statement showing the receipts of the last three years is appended. Pending final dispo of the question of converting the Industrial School at Chitaldrug into a grant-in-aid insti tion a sum of Rs. 800 has been estimated as receipts from that school.

LOCAL FUNDS GENERAL.

Statement of actual receipts from sale proceeds realized from the six Industrial Schools under the head II.

(6) Carpentry School, Hole-Narsipur ...	189 3 6	274 14 5	275 0 6

III. Engineering School, Mysore.—The estimate of fees expected to be realized from th Mysore Engineering School has been reduced from Rs. 2,880 to Rs. 1,560 for the followin reasons. The Senior Draughtmen's class and the Senior Sub-Overseers' class, although the are different in names, form practically one class and have been consequently amalgamate into one called the Senior class.

By a resolution of a meeting of the Committee which was held on 3rd July 1907 th number of pupils in the Junior class has been limited to 20 and that in the Senior clas to 15. Accordingly the estimate of fee receipts has been modified as follows:—

	No. of pupils.	Rate of fee.	Total for the year.
		Rs.	Rs.
1. Junior class	20	2	480
2. Senior class	15	4	720
		Total ...	1,200
3. Sanitary Inspector's class, if opened	15	2	360
		Grand Total ...	1,560 a year.

Thus the total estimate of receipts under the heads I, II and III amounts to Rs. 17,000+3,900+1,560 or Rs. 22,460 and is less than the sanctioned estimate for 1907-08 by Rs. 19,620.

Proceedings of the Government of His Highness the Maharaja of Mysore,

EXPENDITURE.

The total estimated expenditure sanctioned in the budget for 1907-08 under all the heads amounts to Rs. 76,620, including the sum of Rs. 1,000 sanctioned by Government Order No. 11418-9—Edn. 301-06-2, dated 4th June 1907, for materials, temporary wages and furniture and apparatus for the six Industrial Schools under the head II. By the same order the provision for temporary wages of the Mysore Industrial School was reduced from Rs. 4,000 to Rs. 3,000 or by 1,000 rupees, the savings of Rs. 1,000 being utilized towards the additional grants required for the Industrial Schools under head II. An additional grant of Rs. 5,565 was sanctioned under the same head by Government Order No. 5009-10—Edn. 304-06-4 of 29th November 1907 which further stated that the sum of Rs. 2,000 above referred to should be considered apart of the grant of Rs. 5,565. The total amount sanctioned for the current year was accordingly Rs. 76,620+(5,565—2,000) or Rs. 80,185 as shown in the enclosed budget estimates. The total expenditure estimated for 1908-09 is Rs. 71,368 exclusive of the increases of grants recommended under heads I, II and III. The variations occurring under some of the heads are explained below :—

I. Industrial School, Mysore.—Additional grants have been recommended for this school under the heads (*g*) Establishment, (*b*) General Education Branch, (*c*) Scholarships and (*d*) Sheds, etc., in this office letter No. 6096-7—363, dated 23rd January 1908. But in the budget estimates the figures for 1907-08 have been repeated under all the heads except under Temporary Wages where the usual provision of Rs. 4,000 has been made.

II. Other Industrial Schools.—Provision has been made under this head for an expenditure of Rs. 13,288 against a sum of Rs. 18,613 * sanctioned for 1907-08. The estimate does not include the additional grants recommended under this head in this office letter No. 6124—367, dated 28th January 1908, and also excludes Rs. 175 sanctioned for sheds for the Dodballapur Weaving School during the current year.

* 14,048
+4,565
18,613

III. The Engineering School, Mysore.—The provision under this head has been reduced from Rs. 8,009 to Rs. 7,857 or by Rs. 152. The expenditure under (*a*) Establishment has been raised by Rs. 48, being the increment earned by the two Assistant Masters in the grade 40-2-50, while that under (*b*) Furniture has been reduced from Rs. 300 to Rs. 100. This accounts for the decrease of Rs. 152 under this head. Proposals for additional grants for the Engineering School have been submitted with this office letter No. 6098—365, dated 23rd January 1908.

IV. Scholarships held in Technical Schools.—Out of the 57 students in receipt of Technical Scholarships outside the State, 21 students who were getting scholarships at Rs. 20 each and 2 getting scholarships at Rs. 15 and Rs. 10 respectively passed their final examination of December 1907 and only 34 remain for whom scholarships have to be provided. This number includes those for whom scholarships were granted by Government Order Nos. 3154-5—Edn. 20-06-85 and 6405-6—Edn. 16-07-33 of 5th October 1907 and 8th January 1908 respectively. Again 14 of these students will finish their course by the end of December 1908 and 10 new students will have to be given scholarships with effect from 1st January 1909. Consequently a provision of Rs. 7,760 has been made in the Budget for 1908-09 for 34 scholarships at Rs. 20 each for 7 months and 30 scholarships at Rs. 20 each for 5 months. Including the amount of scholarships tenable by school masters deputed to study improved methods in silk industry, the total provision required under the head IV is Rs. 8,180.

V Grants-in-aid.
VI Sericulture.
VII Travelling allowance to the Superintendent of the Industrial School, Mysore.

} The figures under these heads remain unaltered.

Local Fund and Sanitary (Education), dated 16th June 1908.

No. 13097-9—Edn. 278-07-4, dated Bangalore, 16th June 1908.

Order thereon.—The Inspector-General estimates the receipts and expenditure of the Industrial and other Special Schools maintained from the Local Funds General for 1908-09 as shown below:—

	Sanctioned estimates for 1907-08	Proposed estimates for 1908-09	Difference
	Rs.	Rs.	Rs.
Receipts	42,080	22,460	—19,620
Expenditure	80,185	71,368	—8,817

2. In para 2 of Government Order No. 11480-1—Edn. 340-06-2, dated the 5th June 1907, sanctioning the budget estimates of the Industrial and other Special Schools for the current year it was observed that the estimate of receipts framed by the Inspector-General of Education, *viz.*, Rs. 42,080, was somewhat oversanguine and that this amount was accepted pending further information. The Inspector-General has based his estimates of receipts for 1908-09 on the actuals for the preceding three years and also on the increased income expected from the Industrial School, Mysore. The Inspector-General's present estimate of receipts, *viz.*, Rs. 22,460 is accordingly accepted.

3. The Inspector-General has estimated the expenditure for 1908-09 at Rs. 71,368. The amount sanctioned on account of temporary wages for the Mysore Industrial School during the current year is only Rs. 3,000, but the Inspector-General has included Rs. 4,000 under this item. This is accordingly reduced to Rs. 3,000 so that the estimated expenditure for 1908-09 will be Rs. 70,368.

4. A sum of Rs. 2,950 will be added to the above estimate of Rs. 70,368 on account of the additional grants sanctioned since the receipt of the Budget as noted below:—

(1) Rs. 2,770 for the Industrial School, Mysore (*vide* Government Order No. 11782 -3—Edn. 254-07-2, dated 13th May 1908.)

(2) Rs. 180 for the monthly grant of Rs. 15 sanctioned for the brass work class at Magadi (*vide* Government Order No. 10414-5—Edn. 108-07-5, dated 18th April 1908.)

Total Rs. 2,950

5. A provision of Rs. 300 will also be made under a separate head on account of travelling allowance to Mr. Odzu, Superintendent of Mr. Tata's Experimental Silk Farm at Bangalore in connection with his visit to important silk rearing centres. (*Vide* Government Order No. 10342-4—Edn. 302-07-2, dated 16th April 1908.)

6. The Inspector-General of Education has also submitted the following proposals involving additional cost to the Local Funds General:—

Proposals.	Additional cost involved.
(1) Additional expenditure for the Industrial Schools at Channapatna, Hole-Narsipur, Dodballapur, Chiknayakanhalli and Molakalmuru.	Rs. 5,790 per annum
(2) Do for the Engineering School, Mysore ...	„ 372 do
(3) Increase of grant to the Hole-Narsipur Weaving Institute.	„ 300 do
	Total Rs. 6,462 per annum

The additional cost involved in these proposals, *viz.*, Rs. 6,462 per annum, will be provisionally included in the Budget, subject to separate sanction being accorded in each case.

7. The Budget as above altered is sanctioned providing for an income of Rs. 22,460 and an expenditure of Rs. 80,380 as per details given in the accompanying statements, an abstract whereof is given below:—

No.	Budget Heads	Sanctioned receipts for 1908-09	Sanctioned expenditure for 1908-09

Memorandum submitted by the Committee appointed in Government Order No. G. 5442-3—G. M. 53-05-36, dated the 7th May 1906, to consider and report on the possibilities of retrenchment in the menial establishment of the General and Revenue Secretariat.

No. G. 7453-4—G. M. 236-07-2, DATED BANGALORE, 19TH JUNE 1908.

ORDER THEREON.—The Committee have proposed a reduction of 58 hands in the existing menial establishment consisting of 299 hands excluding the Shroff, thereby fixing the scale at a total of 241 hands with a monthly cost of Rs. 2,227, against Rs. 2,676, thus securing a saving of Rs. 449 per mensem, and have recommended that any reduction decided upon in the number of peons should not be made suddenly so as to throw out of employment a number of poor men on small salaries but that it should be given effect to gradually by arranging that as long as the number of places in any class is in excess of the prescribed reduced scale, no vacancies shall be filled in such class or promotions made thereto.

2. While agreeing in the conclusions arrived at by the Committee, Government consider that a further reduction of nine more men can be made without prejudice to actual requirements or efficiency of the menial establishment and that the services of eight members borne on the Secretariat Establishment but attached to the marginlly noted Government Houses may properly be transferred to the Government House Establishment.

(1) For Guests' Quarters, Bangalore, 3 peons—(9), (8), (7)
(2) For Guests' Quarters, Mysore, 3 peons—1 (8), 2 (7)
(3) For Sir Seshadri Iyer's Bangalow at Mysore, 2 Malis—2 (7).

3. Government are pleased to convey their sanction to the reduction of 67 hands from the existing menial establishment and to the transfer of 8 more hands at a monthly cost of Rs. 60, as detailed above, to the Government House Establishment, these men continuing as heretofore to be under the control of the General and Revenue Secretary. Government approve of the Committee's recommendations as to the gradual manner in which effect should be given to the reduction so as not to cause hardship to men already in service either permanently or acting from more than one year prior to the date of this order, but they trust that endeavours will be made to bring the reduced scale into force by retiring old and inefficient men as soon as possible and by absorbing vacancies which may occur hereafter. A statement showing the present and the reduced scale as now sanctioned is appended to this order.

4. As regards the system of giving allowances to deserving menials of Councillors' Establishments out of a monthly grant of Rs. 16 placed at the disposal of each of the Councillors, the Committee admit the force of the Comptroller's objection and recommend that it may be abolished when the present recipients cease to draw it. This recommendation of the Committee is also sanctioned.

5. The net result of the foregoing reductions when fully effected will be a saving of Rs. 569 per mensem.

Government Proceedings No. 1211-2, dated 29th August 1907, directing that certain Inam villages in the Kolar District belonging to the Majjigehalli Matt at Mulbagal should be taken under Government management and a monthly allowance of Rs. 50 given to the Swamigalu out of the realizations of these villages.

Srimukha registered No. 3275, dated 14th February 1908, from the Swamigalu of the Majjigehalli Matt representing that the allowance of Rs. 50 is insufficient for Matt expenses and requesting that the two Matt villages in the Shimoga District may also be taken under Government management and that an enhanced allowance may be disbursed to him.

Letter No. 424-67, dated 31st March 1908, from the Deputy Commissioner, Shimoga District, reporting on the above.

No. 5404-7—Muz. F. 2 of 1901, dated Bangalore, 1st June 1908.

ORDER THEREON.—In his Srimukha read above, the Swamigalu represents that the monthly allowance of Rs. 50, sanctioned in the Government Order cited above, is insufficient for the expenses in the Matt and requests that the Inam villages of Majjigehalli and Kavalikatte in the Shimoga Taluk also be taken under Government management and a monthly allowance of Rs. 200 be disbursed to him regularly. The Deputy Commissioner of Shimoga reports in his letter read above that the two villages referred to are at present under the management of one Narasimhachar, that Narasimhachar stated that an annual income of Rs. 254-9-6 and Rs. 152-12-6 for Majjigehalli and Kavalikatte villages respectively is being realized and that, deducting Rs. 40-13-9 on account of Local Fund due to Government and Rs. 40 on account of the remuneration of the patels and shanbhogs and the expenses of the services in the Brindavanam of Sri Kesva Madhava Thirtha Swami at Benkipur, a net sum of Rs. 326-8-3 is being sent to the Swamigalu annually. That Officer is of opinion that a monthly allowance of Rs. 25 may be paid to the Swami on account of the two villages.

2. Under the circumstances reported, the Government are pleased to direct that the Inam villages of Majjigehalli and Kavalikatte in the Shimoga Taluk endowed to the Majjigehalli Matt may be taken over under Government management and that out of the income, Rs. 25 per mensem be given to the Swamigalu of the Matt as suggested by the Deputy Commissioner. The arrears of gutta amounts if any should also be recovered from these villages through Government agency. The Deputy Commissioner is requested to take the needful steps in consultation with the Revenue Commissioner in the matter of the introduction of survey and settlement into these villages.

3. The action taken should be reported for the information of Government.

Government Proceedings No. 233-42—Muz. F. 102-92, dated 14th December 1892 laying down rules for the succession of Gurus to Matts, enjoying cash grants or land inams.

Petition Registered No. 1228—4161, dated 10th April 1908, addressed to His Highness the Maharaja by Sri Narasimha Bharati Swamigalu, Swami of the Sampankatte Matt in the Nagar Taluk, requesting permission to nominate Mahabala Bhatta, son of Gadada Rama Bhatta, as his successor.

Letter No. 474—78, dated 3rd May 1908, from the Deputy Commissioner of the Shimoga District, reporting on the above.

No. 5533-4—MUZ. F. 3-1907, DATED CAMP MYSORE, 11TH JUNE 1908.

ORDER THEREON.—The Sampankatte Matt in the Nagar Taluk is a Muzrai Institution endowed with cash and land inams in the Sagar and Shikarpur Taluks of the Shimoga District. Sri Narasimha Bharati Swamigalu, the present Swami of the Matt petitioned His Highness the Maharaja, representing that owing to gradual failure of his health and his consequent inability to perform puja and other services in the Matt, he might be permitted to nominate Mahabala Bhatta, son of Gadada Rama Bhatta of Mattige village, as his successor.

2. The petition having been forwarded to the Deputy Commissioner of Shimoga for enquiry and report, that Officer states that the present Swami who is 55 years old, is, owing to ill-health, anxious to give Asrama to the said Mahabala Bhatta of the Mattige village and that the latter is a boy of 13 years of age belonging to a respectable family of the Havyaka caste, one of whose members was formerly a Swami of the Matt and that arrangements are made for the boy's future education and that the brother and guardian of the boy and many of the disciples of the Matt are agreeable to the nomination and he, therefore, recommends that the nomination may be recognised by Government.

3. Under the circumstances, the nomination of Mahabala Bhatta, as junior Swami of the Sampankatte Matt to succeed the present Swami, is approved.

4. The information relative to the endowments of the Matt in the Shimoga District, called for in this office docket No. 499, dated 13th May 1908, should be submitted at an early date.

Government Proceedings No. 2246-51, dated 15th December 1904, passing orders regarding the Archakship of the Sri Anjaneyaswami temple at Shimoga.

Petition registered No. 5196, dated 15th May 1907, from Krishniengar on behalf of minor Naraniengar, appealing against the Deputy Commissioner's Order rejecting his claim to the Archakship of the temple in question.

Correspondence ending with letter No. 252-33, dated 4th December 1907, from the Deputy Commissioner, Shimoga District, reporting on the above.

No. 5559— Muz. F. 47-1898, DATED BANGALORE, 12TH JUNE 1908.

ORDER THEREON.—The facts of the case are as follows:—

The Sri Anjaneyaswami temple at Shimoga is a Muzrai Institution endowed with Inam lands. One Channappiah who was the barawarddar Archak of the temple died on the 25th October 1896 leaving behind him a childless widow Lakshamma who in the following month appointed one Sreenivasiengar, a distant relative of hers to perform Puje in the temple. In February 1898 Rai Bahadur Mr. A. Sreenivasacharlu visited the temple when it was complained to him that Lakshamma was a leper and that she constantly entered the Garbhagudi and handled the articles of worship greatly to the annoyance of the devotees. That Officer thereupon orally ordered the Amildar of Shimoga that Lakshamma should not be allowed to enter the temple and that the services of her Gumastha Sreenivasiengar should be dispensed with. Accordingly Sreenivasiengar was removed from the Archakship and one Venkappiah, who was a first cousin to the late Channappiah was appointed to do the duties appertaining thereto. Sreenivasiengar thereupon appealed to the Deputy Commissioner, Mr. H. V. Nanjundayya, who, in his order dated 7th June 1899 in Revenue Miscellaneous Appeal No. 4 of 1898-99, observed that Lakshamma who was admitted to be a leper had no right to succeed to her husband's property according to Hindu Law and that Sreenivasiengar's claims being founded on hers, were rightly rejected and he directed that a separate order should be issued regarding the Archakship with a view to dispose of the same independently of the two rival claimants. In accordance with the foregoing order a Yadi No. 2052 was sent to the Assistant Commissioner on 8th June 1899 to the effect that as both the claimants had not yet substantiated their right to the Puje and as Venkappiah had admitted that he belonged to the Viswamitra Gotra, a competent man should be appointed as Archak on behalf of Government till the rival claims were disposed of by a competent Court. On 20th June 1901 Venkappiah appealed to Government against the Deputy Commissioner's Order directing his removal from the Archakship. This was referred to the Deputy Commissioner. Mr. K. P. Puttanna Chetty reported that both Venkappiah and the widow Lakshamma had died of plague about the beginning of 1902 and that Venkappiah had left two children behind him and that one Krishnaiengar was their guardian and that he was performing Puje in the temple. Upon a further report from the Deputy Commissioner stating that one Rangamma sister of Channappiah who had three sons named Kesava Bhatta, Narasimha Bhatta and Ranga Bhatta, had applied to him for the post as their hakdari appointment, it was ordered in the Government Proceedings of the 15th December 1904 read above, that the question regarding the claim should be decided by him and that pending final decision, Krishnaiengar should be continued in the temporary appointment of the Archak during the interval. Thus the parties who lay claim to the office are Kesavabhatta, Narasimha Bhatta and Ranga Bhatta sons of Channappiah's sister Rangamma on the one hand and Venkataramana Iyengar minor (since deceased) and Narniengar minor sons of the late Venkappaiah on the other.

2. The parties were heard by the Deputy Commissioner Mr. M. Narain Rao, who examined their witnesses and the exhibits filed by them in Muzrai case No. 1 of 1905-06. Kesava Bhatta and his two brothers lay claim to the office as the surviving heirs (sister's sons) of Channappiah who died issueless. Venkataramana-Iyengar based his claim to the office on the ground that he was adopted to the late Channappiah, but owing to his death, the question of the validity of his adoption has not been discussed by the Deputy Commissioner. His brother Naraniengar

contended that he was the nearest heir to the late Channappiah. The Deputy Commissioner has observed that Naraniengar is the son of Venkappiah and grandson of Venkatasamiah, who was the uncle of the late Channapiah. Kesava Bhatta and his brothers contended that Channappiah was of the Harischa Gotra and that Venkatasamiah grandfather of Naraniengar though born in the same family had been given away in adoption to one Venkataramaniah of Mathur who belonged to the Viswamitra Gotra and that by virtue of such adoption his decendants (Naraniengar and his father) have no claim to the Archakship. Naraniengar on the other hand contended that his grandfather Venkatasamiah, his father Venkapppiah and himself were all of Harischa Gotra. The Deputy Commissioner, who examined the witnesses on behalf of the contending parties and took down their evidence, has in his Judgment, referred to exhibit F which is the Yadi No. 2052, dated 8th June 1899, from Mr. H. V. Nanjundayya, the then Deputy Commissioner to the First Assistant Commissioner in which that officer states that he went to the Sri Anjaneyaswami temple on the 8th June 1899 and made Venkataramaniengar since deceased repeat his Gotra and Pravara when the boy gave out his gotra to be Viswamitra and that Venkappiah himself admitted that he was of the Viswamitra Gotra. Mr. M. Narain Rao also states that Venkappiah made several attempts to make it appear that he was a member of the late Channappiah's family, of the Harischa Gotra and therefore entitled to succeed in preference to Channappiah to the Archakship in question and to the lands appertaining thereto, but that he signally failed in all his attempts, that in 1877 Venkappiah wanted to get possession of the Umbali lands in the enjoyment of Channappiah but was referred to a Civil Court, that in 1883-4 he claimed to be the grandson of Raghaviah who, he alleged had adopted Venkatsamiah and was told that the alleged adoption should be established in a Civil court, that he brought a Civil Suit for a declaration that the said adoption was valid but failed, and that again after the death of Channappiah, he tried to make it appear that his own son Vekataramaniengar was adopted by Channappiah but met with no success. For the foregoing reasons the Deputy Commissioner has held that Naraniengar's family belongs to the Visvamitra Gotra and that he is therefore not entitled to claim inheritance in the family of the deceased Channappiah who belongs to the Harischa Gotra. In the absence of direct heirs, the Deputy Commissioner finds that the right of succession devolves on Rangamma, as sister of the late Channappiah and he was therefore ordered that her sons Kesava Bhatta and his two brothers are entitled to succeed to the office of the Archak of the temple and has passed a decree accordingly. The Deputy Commissioner has further observed that Kesava Bhatta will be appointed to the office if he is found qualified to do the duties thereof.

3. Against the foregoing order of the Deputy Commissioner, Naraniengar has appealed to the Government. The parties were heard by Government on the 23rd May 1908. Mr C. B. Seshagiri Rao, Advocate appeared for the appellant and the Respondent Kesava Bhatta appeared in person. It was urged on behalf of the appellant that under Section 11 of the Civil Procedure Code the present claim to establish a right to the office of the archak was cognizable by Civil Courts and that Sections 221 and 222 of the Mysore Land Revenue Code did not take away the rights of the Civil Courts to adjudicate upon the right of succession to the office of the Archak and that therefore the parties should be referred to the Civil Courts to avoid conflicting decisions. As regards the merits of the case itself it was urged that Venkatasamiah grandfather of the appellant was the adopted son of Raghaviah a brother of the deceased Channappiah's grandfather who was of Harischa Gotra and in support thereof, it was pointed out that in some of the Saguvali chits granted in the years 1847 & 1849 Venkatsamiah was styled Raghaviana Venkatsamiah and that therefore Venkatsamiah belonged to the Harischa Gotra and not Visvamitra as decided by the Deputy Commissioner. It was further urged that Mr. H. V. Nanjundayya who went into the temple and got the Pravara and Gotra repeated might have mistaken some one in the temple for Venkappiah and that he could not have known Venkappiah and his sons well enough.

4. The Government observe that the late Chief Commissioner's Circular No. 30, dated 26th October 1854, prohibits the institution of suits for Pujari rights in Civil Courts. Such suits are enquired into and decided by Amildars in the first

Muzrai, dated 12th June 1908.

instance and then by the Deputy Commissioners, on appeal, the second appeal lying to Government in the Muzrai Department. As regards the mention of the name of Raghaviah in connection with the name of Venkatasamiah, it is true that in some of the Saguvali chits, such mention has been made while in the majority of others it is merely stated Gowda Venkatasamiah, Pujari Venkatasamiah and so on without the prefix of the name of Raghaviah. In this connection the respondent stated that although Venkatasamiah had been given in adoption to Mathur Venkataramaniah of Viswamitra Gotra, still Venkatasamiah and his brother Narniengar who was adopted to Raghaviah of the Harischa Gotra were living together, that Venkatasamiah was looking after the lands, etc., and that he used his name conjointly with Raghaviah who was the head of the family, next, as regards the Yadi written by Mr. H. V. Nanjundayya to the First Assistant Commissioner on the 8th June 1899, the Government observe that Mr. H. V. Nanjundayya was holding regular enquiry as to the persons entitled to succeed to the Archakship in question and it was in the course of such enquiry that he went into the temple and asked Venkatramaniengar brother of the appellant to repeat his Gotra and Pravara, when the boy gave out his Gotra to be Viswamitra and Venkappiah father of the boy who was present on the spot also acquiesced in it. The Government therefore consider that there could have been no mistake in the matter as urged by the appellant.

5. Under the foregoing circumstances the Deputy Commissioner's decision is upheld and the appeal rejected. Kesava Bhatta is already doing the duties of Archak in the Sri Chennakesavaswamy temple at Belur and no further orders of Government are necessary about his competency to do the Archak duties in the Sri Anjaneyaswamy temple at Shimoga.

Para 7 of Government Proceedings No. 4951-3, dated 24th April 1907, calling for a scale of expenditure to be incurred in the Agraharada Sri Anjaneyaswami temple at Hoskote.

Letter No. 122, dated 1st May 1908, from the Deputy Commissioner, Bangalore District.

No. 5578-9—MUZ. 27-1902, DATED CAMP MYSORE, 12TH JUNE 1908.

ORDER THEREON.—In their Proceedings of the 24th April 1907 read above, the Government directed that the Devadaya inam lands endowed to the Agraharada Sri Anjaneyaswami temple at Hoskote be freed from attachment and restored to Palli Govindachar, manager of the institution. The Deputy Commissioner was at the same time requested to submit a regular scale of expenditure to be incurred in the temple.

2. From the Deputy Commissioner's letter read above, and its enclosures it is observed that the lands in question were restored to Palli Govindachar and that a detailed scale of expenditure has been prepared by him. The scale provides for the Nityakatle services at a cost of Rs. 69, for Hechukatle service at Rs. 14 and for an establishment costing Rs. 27 per annum. The Deputy Commissioner recommends the adoption of the scale in the institution.

3. The detailed scale submitted appears suitable and is accordingly sanctioned. The Deputy Commissioner is requested to ask the manager of the temple to follow the scale strictly and submit periodical accounts of the actual expenditure incurred to the local authorities.

4. A statement is hereto annexed showing the entire scale of expenditure of the temple as now sanctioned.

Government Order No. 247—Muz. F. 76-93, dated 6th September 1899, approving of the Chitaldrug Deputy Commissioner's recommendation to entrust the collection of Kanikes and other fees in the Sri Lakshmi Narasimhaswami temple at Horakeredevarpura in the Holalkere Taluk to the Dharmadarsis of the Institution.

(2) Government Proceedings No. 2481-2—Muz. F. 76-93, dated 16th January 1905, revising the scale of expenditure in the said temple.

(3) Petitions from the servants, Dharmadarsis and other devotees of the temple, complaining of the mismanagement of the affairs of the Institution and

(4) Letter No. 472, dated 25th April 1908, from the Deputy Commissioner, Chitaldrug District.

No. 5652-3—MUZ. F. 76-93, DATED BANGALORE, 17TH JUNE 1908.

ORDER THEREON.—The Government observe that the complaints brought forward in the several petitions read above, fall under 3 heads, *viz.*, (1) those against the Dharmadarsis, (2) those against the Archak and (3) those against the temple servants or *Samerayas* as they are specially named. The Deputy Commissioner has submitted a detailed report after an inspection of the temple and a personal enquiry on the several complaints.

2. Firstly, as against the Dharmadarsis.—It is complained that the present Dharmadarsis in certain cases, misappropriated the whole of the Pudavat amounts subscribed by the devotees for services in the temple, that in certain other cases after performing the stipulated services they retained the balances with themselves without crediting them to the Treasury until recovered from them by the local officers and that in other cases they made it appear that they exceeded the Tasdik allotment assigned for the temple festivals but appropriated the excess for their own use.

3. As regards this point, the Deputy Commissioner reports to the effect that the irregularities complained of are true, that Ranganna who is directly in charge of the temple accounts is responsible therefor, that the latter's explanation is not satisfactory and that therefore in all the specific cases complained of, the amounts still remaining in his hands were recovered from him and credited in the Treasury. As regards the excess expenditure, the Deputy Commissioner says that as the said Dharmadarsi had not obtained previous sanction therefor, he has been directed to pay the excess amount out of his own pocket. The action taken is approved.

4. It is further complained that one Dodnarasiah deposited documents with the said Ranganna with a view to his collecting the loan of Rs. 200 secured thereby and crediting the sum to the funds of the temple, but that the Dharmadarsi misappropriated the amount, and when a complaint was made to the Amildar, he executed a document for that amount in favour of Dodnarsiah and bound himself to maintain a nandadipam in the temple in lieu of the interest payable to him.

5. As regards this point, the Deputy Commissioner reports that the united action of Ranganna and Dodnarasiah in bringing a document into existence has altogether changed the aspect of the case. Dodnarasiah who at first joined with the Dharmadarsi to shield him subsequently tried to recover the amount, but on being given evasive replies he made over the document which was standing in his name, in favour of the temple, and now prays that the sum of Rs. 200 may be recovered from Ranganna by Government. Ranganna was accordingly asked to pay up the full amount at once, but he having pleaded his inability to do so, and prayed for time to pay in four equal instalments, the Deputy Commissioner has directed the recovery of the amount as agreed to by Ranganna. The action taken in this matter is also approved.

6. Another item of complaint against Ranganna is that he misappropriated the sum of Rs. 100 invested by one Ganteppala Bhimiah of Mayakonda village for

the interest accruing thereon being used for the annual celebration of Ankurarpana Utsava of the temple. The Deputy Commissioner reports that no references relating to the investment are forthcoming, that no satisfactory accounts of the Puduvat funds having been maintained in the temple, it is not possible to ascertain definitely what is the total amount of the Puduvat funds of the temple, and whether the objects for which those investments have been made are duly fulfilled, and that therefore he has directed the local authorities to sift the matter as far as possible by holding a thorough enquiry. The Government regret that there has been a lack of supervision on the part of the local authorities till now in this behalf. The Deputy Commissioner's promised further report is awaited.

7. In reporting upon the complaints referred to in the foregoing paras, the Deputy Commissioner expresses the opinion that the Dharmadarsis of the temple, especially Ranganna and Puttalinga Bhatta have not been doing their work conscientiously and that they are chiefly responsible for the mismanagement of the temple affairs. It is further stated that they have been Dharmadarsis for the past fifteen years and the Deputy Commissioner recommends that all the present Dharmadarsis may be removed and persons noted in the margin appointed in their stead. The recommendation is sanctioned. A notification will separately issue in this behalf.

8. Secondly, as against the Archak.—It is complained that the present Archak of the temple frequently absents himself from his duties, and unwarrantedly raises subscriptions on the pretext of consecrating certain new idols in the temple. With reference to this point, the Deputy Commissioner reports that the pay of the Archak is Rs. 3 per mensem, that besides this, he has been getting an annual income of Rs. 6 from a certain land dedicated to the temple by one Ramanna of Madderu in the Holalkere Taluk (now deceased) but that both the above items of income being hardly sufficient to maintain his family, he is reported to have been absenting himself in view to supplement his income from other sources. He further reports that it is not possible to find a separate competent Archak who will stick to the post on the present meagre remuneration and therefore recommends that the Archak's pay may be raised to Rs. 5 per mensem. Under the circumstances reported the recommendation is sanctioned, the disbursement of the increased pay being made to take effect from the 1st July 1908. The Archak should be warned that he should not in future absent himself to the detriment of the temple worship, and give room to any further complaint.

9. Lastly, as against the temple servants.—It is observed that the only petition received against them is from the Dharmadarsis, who state that these servants are trying to monopolise the whole Kanike receipts of the temple for their own use. On the other hand, the *Samerayas* themselves petition stating that properly speaking they alone are entitled to the Kanikes as the services are rendered under their direction themselves, assuming a priestly function in this respect and that without their aid no services can be performed by the devotees and therefore pray that the Dharmadarsis should be relieved of their control over the levy of the Kanikes. As regards this point the Deputy Commissioner reports that the complaint in question is a long standing one. When complaints were made in 1899 that the *Samerayas* were misappropriating the Kanikes these latter protested and prayed for permission to appropriate to themselves the fees collected from the devotees and offered even to deposit a sum of Rs. 250 in the Savings Bank for the interest to be realised thereon being utilized for temple purposes in return for the grant of the permission sought for. This offer was not accepted and it was directed in the Government Order of the 6th September 1899 read above that no part of the Kanike amount should be allowed to be appropriated by any class of temple servants and that the collection of the fees noted in the margin should be entrusted to the Dharmadarsis. The Deputy Commissioner further reports that on an average an income of Rs. 18 is annually derived from this source, that the levy of the fees has become a source of vexation and therefore recommends that in the interests of the temple and the servants concerned, this

source of income to the Institution may be done away with and in its stead Devakanikes in accordance with the following scale may be levied :—

	Rs.	a.	p.
Offering of cocoanuts, plantains, etc.	0	0	3
Offering Yede	0	0	6
Abhisbekam with water...	0	1	0
Do Panchamruta	0	2	0
Puja with thulasi or flowers	0	0	6
Palaki Utsavam	1	0	0
Adde do	0	8	0
Garudotsavam	2	0	0
Other Utsavams	0	8	0

The Deputy Commissioner further states that if the above Kanikes are levied the income from them may come up to Rs. 20 a year and that the devotees will raise no objection to the levy. Under the circumstances reported the Government are pleased to direct that in supersession of the orders contained in the Government Order of the 6th September 1899 read above, the *Samerayas* be allowed to appropriate to themselves the income from the Panchabab referred to above. In substitution of the income to the temple from the aforesaid source, *viz.*, Panchabab, the Government are pleased to sanction the levy of the Devakanikes recommended by the Deputy Commissioner, the income derived therefrom being credited to the funds of the temple.

10. In conclusion, the Deputy Commissioner reports that the villagers represented to him that the tasdik of Rs. 87-10-0 provided for expenses during the car festival is quite inadequate as the prices of all the articles have gone up very high and that they prayed that the allotment might be raised to Rs. 100 to meet all the charges. He further states that though a sum of Rs. 27-8-0 has been provided for the maintenance of nandadipam in the temple, yet as Dharmadarsi Ranganna has been maintaing a nandadipam from the interest on the sum of Rs. 200 he has borrowed from Dodnarasiah referred to in para 4 above, only an expenditure of Rs. 12-12-0 is being incurred on account of nandadipam from the temple funds. He therefore recommends that from the savings of Rs. 14-12-0 thus accruing may be met the excess charge of Rs. 12-6-0 required to make up the full amount of Rs. 100 for the expenses of the car festival. He also reports that when the sum of Rs. 200 is recovered from Ranganna as ordered by him it will be utilized for the continuance of the nandadipam. The foregoing proposals of the Deputy Commissioner appear suitable and are accordingly sanctioned.

11. The scale of receipts and expenditure of the temple as revised in the foregoing paras which are embodied in the appended statement are sanctioned tentatively for a period of five years as recommended and the Deputy Commissioner is requested to report at the end of that period as to how the revised scheme works.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Government Proceedings No. 3118, dated 23rd January 1906, directing the resumption of the inam lands endowed to the Sri Anjaneyaswami and Sri Venugopalaswami temples at Tayur in the Nanjangud Taluk.

Government Order No. 282, dated 22nd July 1907, rejecting the petition of Siddamallappa and other raiyats of the villages, appealing against the aforesaid order.

Correspondence ending with letter No. 485, dated 13th May 1908, from the Deputy Commissioner, Mysore District.

No. 5668-9—MUZ. F. 2-1907, DATED CAMP MYSORE, 17TH JUNE 1908.

ORDER THEREON.—The Government observe that there are three points in this case on which orders are called for, namely:—

(1) the lease of certain temple lands to Siddamallappa;
(2) the repairs of the temples; and
(3) the scale of expenditure in the institutions.

As regards the lease of the lands, it is observed that in the course of the hearing of the appeal on which the Government order of the 22nd July 1907 was passed, Siddamallappa, one of the cultivators of the inam lands endowed to the temples of the Sri Anjaneyaswami and Venugopalaswami at Tayur, represented that, consequent on channel extension, he had to incur a heavy outlay for improving the land and making it fit for wet cultivation, and that he paid the acreage contribution in addition to water-rate and assessment, and prayed that the land might be continued to him, on payment of the usual amount. He further stated that the same land was offered to him for an annual gutta of Rs. 55 including the water-rate and assessment, but that he declined the offer on the ground that it would be a loss to him and that therefore the land was given out to one Nanjappa for a period of five years.

2. In the Government order rejecting the appeal, it was observed that in consideration of the fact that the said Siddamallappa might have incurred some outlay on the improvement of the land in question, it appeared equitable to lease out the land to him on a somewhat reduced gutta, but that what reduction could reasonably be made had to be decided on ascertaining the approximate expenditure incurred by him on the land after it came into his possession from the previous cultivator Sivanaiya. The Deputy Commissioner was requested to furnish information on this point and also to favor Government with his opinion as to whether the present lessee Nanjappa to whom the land had already been leased out for Rs. 55 for a period of five years could be disturbed with a view to retransfer the lease to Siddamallappa for the same period and if so, what reduced gutta might be accepted from him.

3. The Deputy Commissioner reports in reply that the Amildar states that the panchayetdars estimate the expenditure incurred by Siddamallappa for improving the land at Rs. 250, but that it is not now possible to ascertain exactly the extent of the improvements effected by him a number of years previously and that the acreage contribution, water-rate and assessment paid by him amount to Rs. 127-8-4. He further states that the present lessee Nanjappa, who is the nephew of Siddamallappa, is only the nominal guttedar; the actual cultivator being Siddamallappa himself and that therefore no objection will be raised to retransfer the lease to the latter. He further reports that on enquiry it was ascertained that during the year 1906-07, about 46 or 47 pallas of paddy were realised and that according to Malappa's own statement that the quantity realised was 39 pallas and after deducting one-half of the last named quantity as Rajapal, and calculating the price of the other half at so low a rate as Rs. 4 per palla, and deducting from this amount the gutta of Rs. 55 as now fixed, the balance of Rs. 23 goes to the cultivator as a clear profit. The Deputy Commissioner expresses the opinion that as Siddamallappa has appropriated to himself the income from the land during the time it was in his possession paying only the kandayam to the temple archak, anything less than 25 pallas per year would not be a fair gutta. He moreover

observes that the complaint of Siddamallappa that he suffered loss is not true as it is understood that he has been profited to the extent of Rs. 162 up to the year Parabhava when the land passed into others' hands. In conclusion, the Deputy Commissioner recommends that, as the Government consider that Siddamallappa is entitled to some concession on account of the improvements effected by him, the gutta of Rs. 55 per annum may be ordered to be continued to be paid by Siddamallappa.

4. Under the circumstances reported, the Government are pleased to sanction the Deputy Commissioner's recommendation. He is requested to issue needful instructions to have the lease of the land retransferred to Siddamallappa on condition of his paying a gutta of Rs. 55 per year, for the next five years. As it is reported that the archak Venkatakrishnachar promises to maintain the temples in an efficient condition and conduct all services therein if the inam lands are given over to him, the Deputy Commissioner is requested to inform him that the matter will receive the consideration of Government after the expiry of the five years period for which the present lease has been sanctioned for Siddamallappa.

5. Next as regards the repairs of the temples it was directed in the Government Proceedings of the 23rd January 1906 read above, that the repairs should be got done by Venkatakrishnachar, the newly restored archak. It is now reported that the said archak pleads inability, as the repairs are estimated to cost five or six hundred rupees but that he states that if either the arrears of the produce or of the kandayam is recovered from the guttadars and paid to him, he would himself contribute to make up the necessary amount of the estimate and complete the repairs within three months thereafter. The Amildar supports the archak's prayer and states that the cultivators of the lands not having been recognised by Government as kadim tenants, it is not possible to ascertain from them what particular crop and how much was harvested every year, and recommends that only the arrears of kandayam which amount to Rs. 451-15 7 may be recovered from those from whom they are due. In this view, the Deputy Commissioner concurs.

6. The Deputy Commissioner's recommendation is approved. The arrears of kandayam up to the year Visvavasu which are stated to amount to Rs. 451-15-7 as well as that for the years Parabhava and Plavanga which remains still uncollected, should be recovered from the guttadars concerned, and credited to the funds of the institution, in view to the same being utilised for the repairs. The Deputy Commissioner is requested to have an estimate prepared for the repairs of the temples in question and submit it for the sanction of Government at an early date.

7. In para 5 of the Government Proceedings of the 23rd January 1906, the Deputy Commissioner was also requested to submit a scale of expenditure for the two temples in question, with a view to exercise proper check over the income and expenditure of the temple lands. A scale has been submitted by the Deputy Commissioner, who states that it has been prepared by the Amildar Mr. Dharma Rao after careful scrutiny and particularly with reference to the income from the inam. From the scale it is observed that against an income of Rs. 144-14-6 due to the temple per annum after payment of Government dues, an expenditure of Rs. 56-6-0 is proposed to be fixed for Nityakatle, Rs. 33-10-0 for Hetchukatle, Rs. 48-0-0 for pay of the archak of both the temples and Rs. 6-14-6 for annual repairs. The Deputy Commissioner is of opinion that the scale is reasonable and may be adopted.

8. Under the circumstances represented, the proposed scale which appears suitable is sanctioned. A statement of the scale as now sanctioned is appended hereto.

Correspondence ending with letter No. 3892—B. R. 746, dated 24th January 1908, from the Comptroller to the Government of Mysore, pointing out the procedure to be adopted for the custody of the Four per cent Mysore State Loan papers purchased on behalf of and belonging to the several Muzrai Institutions in the State.

No. 5803-10—Muz. 1-1906, DATED BANGALORE, 27TH JUNE 1908.

ORDER THEREON.—In Government Proceedings No. Fl. 1509-280-04-37, dated 15th August 1906, imposing an aggregate limit of Rs. 5,000 on individual Savings Bank Deposits in Mysore, an opportunity was afforded to Savings Bank Depositors having balances in excess of Rs. 5,000 to invest such excess in the Four per cent State Loan newly opened by the Government. This opportunity was availed of and the funds of the several Muzrai Institutions aggregating Rs. 2,20,000 which were in the Savings Bank, were invested in the new Four per cent Loan and Pro-notes were purchased for that sum in the name of the Muzrai Secretary. The Comptroller was subsequently requested to make the necessary arrangements for the safe custody of these Pro-notes and the periodical drawing of interest accruing thereon, and crediting it to the institutions concerned. The Comptroller in the communication read above states that if the Pro-notes belonging to the several Muzrai Institutions in the State should remain in his custody, the interest due thereon up to date should be drawn by the Muzrai Secretariat and credited to the funds of the institutions concerned agreeably to Article 164 of the Civil Account Code, that the Pro-notes should thereafter be endorsed in favor of the Dewan of Mysore, (the words "Pay the Dewan of Mysore or order" being entered in the first cage on the back of each Pro-note) and that a covering list should be forwarded with the Pro-notes showing the institutions to which they belong. After the Pro-notes are received in his office the Comptroller states that the necessary steps will be taken by him to draw the future half-yearly interest, as it becomes due and the total amount of interest less ¼ per cent commission charged in his office for drawing and remitting the interest, will be realized in the same manner as is done in the case of the Government of India Pro-notes and remitted to the Deputy Commissioners or other officers concerned for credit to the respective institutions according to the covering lists accompanying the Pro-notes.

2. The interest due on the Pro-notes for the first three half-years ending with 31st March 1908 has been drawn by the Muzrai Secretariat from the Bangalore District Treasury and remitted to the respective Deputy Commissioners and Amildars for being credited to the institutions concerned.

3. It is desirable that the Pro-notes above referred to, which belong to Muzrai Institutions, should remain in the custody of the Comptroller. The Government accordingly direct that the marginally noted Pro-notes now in the custody of the Muzrai Department be transferred to the Dewan's name and forwarded to the Comptroller with a covering list showing the institutions to which they belong for the needful action being taken in his office in future. The usual commission of ¼ per cent charged by the Comptroller for drawing and remitting the interest may be deducted from the half-yearly interest and the net amount remitted to the Deputy Commissioners and other officers concerned who will take the necessary credit for the interest immediately on receipt of intimation from the Comptroller.

READ—

The Revenue Commissioner's review of the Famine Relief Programmes for the year 1908 received with his No. 11056 of the 14th April 1908.

Dates of receipt of programmes.—The following statement shows the dates on which the programmes were received in this office and those of the Superintending Engineers:—

Districts	Public works		Village works	
	Date of receipt in the Superintending Engineer's Office	Date of receipt in this office	Date of receipt in the Superintending Engineer's Office	Date of receipt in this office

Kadur	Middle of January	6th do do	Middle of February	6th March 1903
Shimoga	16th January 1908	11th do do	17th January 1908	11th do

It will be seen from the above that in the case of both the programmes the returns from the Districts of Mysore, Hassan, Kadur and Shimoga were not received in this office on the prescribed date *viz.*, on or before the 1st March. It is hoped that in future all the returns will be submitted punctually within the prescribed time.

Summary of the programmes.—The total number of projects of all kinds is 5,873 at an estimated cost of Rs. 2,54,75,254 out of which a sum of Rs. 1,56,38,107 or 61·38 per cent is available for the employment of 23,45,71,605 units of famine labour. Particulars of the several classes of projects are given below:—

4. *Number of persons to be provided for.*—According to Section 20 of the Famine Code, provision has to be made for the relief of 7,06,426 persons for six months or for 127,156,680 units.

5. *Adequacy of the programmes.*—It will be seen from the figures shown in the following statement that, taking sanctioned programmes alone, provision has been made for 72·9 per cent of the total number of units of famine labour required to be provided for under the code. The percentage is lowest in the Kolar District being 21·6. In the Districts of Mysore, Kadur and Shimoga the provision more than covers the full requirements, Tumkur has provided for 66·2 per cent of the number requiring relief, Bangalore for 48·1 per cent and Hassan and Chitaldrug for 45 per cent.

Taking the sanctioned and emergency programmes together, ample provision is made in all the districts.

The number of A class works in the Village Relief Programme, though far more satisfactory than in the previous year, is still very small in the districts of Tumkur, Kolar, Hassan

Public Works, dated 24th June 1908.

and Shimoga. It is hoped that Deputy Commissioners of districts will submit for approval in the Public Works Department plans for as many works as possible and bring them under Class A in the next year's programme :—

6. *Defects in the programmes.*—The following are some of the defects noticed :—

(*a*) *Public Works.*—(1) Serial No. 105 in the Tumkur District (Sira Taluk) and No. 17 in the Kadur District (Chikmagalur Taluk) are classed as III C, but are incorrectly shown under "sanctioned programme".

(2) Four large works (Serial Nos. 18, 33, 39 and 59) in the Kadur District have been incorrectly brought under "small works".

(3) In spite of the observation made in para 7 of Government Order reviewing the Famine Relief Programmes for 1907, large works have not been separated from small ones in the programme of the Shimoga District.

(4) The remarks made against Serial No. 9 in the Honnali Taluk, and against No. 14 in the Shikarpur Taluk, *viz.*, "old useful work" are inconsistent with their classification as IV d.

(5) The amounts under the columns 8 and 9 "estimated cost at ordinary rates of whole work", and "estimated cost at ordinary rates of portion available for relief" for Serial No. 18 in the Shikarpur Taluk were shown in the last year's programme as Rs. 20,000 and Rs. 15,000; but in the present programme, they are entered as Rs. 2,00,000 and Rs. 1,50,000 respectively. This requires explanation as to the causes which have led to such a large rise in the estimate.

(*b*) *Village Works.*—(1) Entries have been made in column 10 (names of persons ready to share financial responsibility) against certain Government works in the programmes of the Kolar, Tumkur and Kadur Districts. It is doubtful whether private persons are ready to bear financial responsibility for the execution of these Government works. Again no entry has been made in this column against almost all works in Part II, in the Kolar District programme, though this column is specially intended for the purpose.

(2) The Kadur District programme has not been classified into Parts I, II and III.

(3) The only entry that has been made in column 9 in the Mysore District programme has been "Village shanbhog and patel" and the column has been left blank in the Shimoga District programme. It is hoped that the Deputy Commissioners of these two districts will try to ascertain the names of private persons who would readily undertake the management of works in time of need, and enter such names in the next year's programme.

(4) No remarks have been made in the remarks column by the Deputy Commissioners of the Mysore and Shimoga Districts as to the character or utility of the works.

(5) The Deputy Commissioners of Mysore and Shimoga have shown two separate sets of figures under column 7 "estimated cost at ordinary rates," the lower of the two figures shown against each project presumably representing the amount available for relief workers.

It is not known under what authority these extra figures have been imported by them. In the case of village works, it is presumed that the total estimated cost of the work as given in column 7 is fully available for famine labour.

(6) The works costing Rs. 43,060 have been shown under Class A in the Tumkur District programme, but nothing has been shown under "sanctioned programme" in Form III.

(7) The names of works in the Shimoga District programme have been given in some cases as "earth-work to katte"; No. 25 in the Shimoga Taluk is described as "earth-work to Huliyar Ramanakoppa", etc. It is not possible in these cases to readily determine whether such works should be brought under "tanks" "gokattes", etc., for purposes of Form No. IV.

7. *Number of persons available for famine duty.*—The following statement shows the number of persons available for famine duty in each district as against the number shown in the year 1907. No such lists were received with the Public Works Programme of the Hassan District and with the Village Works Programme of three taluks in the Mysore District.

Number of persons available for famine duty:—

District.	1908.	1907.
Bangalore	487	334
Kolar	223	100
Tumkur	922	510
Chitaldrug	184	221
Mysore	942	1,350
Hassan	241	264
Kadur	42	40
Shimoga	697	218
Total ...	3,738	3,037

In this connection, it is worth observing that it is very important that Deputy Commissioners should have it explained to the members of the Local Fund Board and Unions, the scope and object of famine programmes, the advisibility of land holders settling schemes for improvements of lands, etc., (private and public) to be carried out with their own funds or loans from Government, which would not only provide labour for the villagers, near their homes, at times of distress, but will also promote the benefit of the village, and last but not least the necessity for capable men among them volunteering for famine duty.

8. Forms Nos. III, IV and IVA (Abstract of village works) are herewith annexed.

No. 599-611—4140-52, DATED BANGALORE, 24TH JUNE 1908.

ORDER THEREON.—The following points in the Revenue Commissioner's review read above call for notice.

2. *Para 1.*—The Revenue Commissioner points out that in the case of both the programmes, (*viz.*, for Public Works and Village Works) the returns from the districts of Mysore, Hassan, Kadur and Shimoga, were not received on the prescribed date; and he expresses a hope that in future all the returns will be submitted punctually by the prescribed time. The attention of the Superintending Engineers and the Deputy Commissioners is drawn to this matter, so that the punctual submission of these programmes by the 15th January of each year may be ensured.

3. *Para 5.*—It is again brought to notice this year that the provision under the sanctioned programme is low in the Kolar District; but as explained on a previous occasion, there is little scope for bringing more works under this head in this district. The Superintending Engineer, Eastern Circle, should however see that the projects for (about 20) works entered as good and useful in the programme for this district, are submitted without delay and the works brought under sanction.

4. It is not understood why the project for raising by six feet the Gadare anikat across the Kumudvati river has again been omitted in the programme for the Kolar District, although the omission was pointed out last year. This project has been revised by the Superintending Engineer, Eastern Circle, and the question of raiyats' portion of work to be done to the channels under the anikat is under correspondence with the Revenue Commissioner.

5. It is stated that the Assistant Engineer, on special duty, took up the project for constructing a new anikat at Lingadahalli in the Chiknayakanhalli Taluk (Seria

Public Works, dated 24th June 1908.

No. 100 of Tumkur District) and the result is not known. The Executive Engineer should have made the necessary enquiry into the matter before entering the work in his programme. This should now be done.

6. The Revenue Commissioner remarks that the number of A Class works in the Village Relief Programmes is still very small in some of the districts; and that projects for as many works as possible should be submitted and the works brought under Class A in the next year's programmes. This should receive due attention on the part of the Deputy Commissioners of Districts.

7. *Para 6.*—The attention of the Superintending Engineers and the Deputy Commissioners is drawn to the various defects in the programmes, brought to notice by the Revenue Commissioner in this para. These should be rectified in the programmes to be submitted for the next year.

8. It was pointed out last year that the project for constructing a new tank at Thumbadi in the Maddagiri Taluk, Tumkur District, which has been ordered to be undertaken only as famine work, should be classed under II b; but the Executive Engineer still contends that this is a useful work, though not remunerative, and accordingly classifies it under II A. This classification can, under the circumstances, be allowed to stand.

9. *Para 7.*—The omission to furnish the usual lists of persons available for famine duty along with the Public Works Programme of Hassan District and with the Village Works Programme of certain taluks in the Mysore District, brought to notice by the Revenue Commissioner, is not understood. These lists should be supplied with the next programme by the officers concerned. The suggestions of the Revenue Commissioner that the Deputy Commissioners should have the scope and object of famine programmes, etc., etc., explained to Members of the Local Fund Boards and Unions might be given due effect to.

10. As required by Section 32 of the Famine Code, the Executive Engineer, Water-Supply and Stores Division, who is in charge of the entire reserve famine tools, reports that the undermentioned articles are maintained to meet emergent requirements.

	No.
Axes, pick	11,420

Proceedings of the Government of His Highness the Maharaja of Mysore, Public Works, dated 25th June 1908.

READ—

(1) Government Proceedings P. W. No. 710-40—3923-53, dated the 6th July 1904, sanctioning the abolition of the French Rocks Division and the formation of a "Channels Division" in its stead, in charge of an Executive Engineer.

(2) Public Works Secretary's Note, dated 29th January 1908, recommending the abolition of the Channels Division as the works under the charge of the Executive Engineer are now practically reduced to the maintenance of the river channels and as the cost of the establishment in the Division is very disproportionate to the expenditure on works, and stating that if the proposal is approved, the four Sub-Divisions with Head-quarters at French Rocks, Nanjangud, Yedatore and Hole-Narsipur will be added on to the Mysore and Hassan Divisions for the present.

No. 616-51—4169-204, DATED BANGALORE, 25TH JUNE 1908.

ORDER THEREON.—The Government are pleased to sanction the recommendation of the Chief Engineer to abolish the Channels Division, with effect from the 1st July 1908, and to the Sub-Divisions now attached to it being added on to the Mysore and Hassan Divisions, according to the situation of the Channels as previously existed.

2. The Superintending Engineer, Western Circle, will be good enough to submit in due course proposals as to how the Sub-Divisions in the Mysore and Hassan Divisions can be best redistributed and what savings can be effected thereby. But he should report at once as to how he would propose to provide for the permanent hands in the Channels Division Office. Only such of the hands as are required for the closing of the annual accounts may be retained. The furniture of the Division office should when no longer required be sent to the General Stores in Bangalore.

3. The Comptroller, Public Works Branch, will arrange to withdraw the Accounts Establishment now employed in the Channels Division and provide for them elsewhere.

Stating that the Amildar of Chamrajnagar may be permitted to halt for a night in any of the villages of the Satyamangalam Taluk of the Coimbatore District whenever he goes on inspection duty to Badagalpur, which is a bechiraki village belonging to the Mysore State and surrounded on all sides by the British Territory.
35	R 8154-5 / L R 144-07-5	13	Officer in charge of the State Huzur Try.	Informing him that the Government Order dated the 18th December 1907, declining to delegate to the Huzur Treasury Officer the power to grant extension of service to superannuated officials of the said treasury, does not cast any reflection whatever on him, and that on administrative grounds the Government see no reason to reconsider that order.
36	R 8163-73 / L R 262-07-4	13	Ex. Comr., Sur. Supt., Rev. Comr. & Dy. Comrs. of Dts.	Stating that the Government Order of the 7th August 1907, prescribing the procedure to be adopted regarding the disposal of applications for the grant of lands, reserved as date groves, for cultivation, is perfectly clear, and there is nothing to prevent the Excise Commissioner from getting such lands or parts of lands, as are not wanted by his department, sub-divided and numbered by the Survey Department during the progress of resurvey operations and thrown open for cultivation.
37	R 8174 / L R 571-07-2	13	Comptroller ...	Stating that Mr. Wetherall, Deputy Commissioner, cannot be regarded as having been in charge of any district from the 28th December 1907 up to the 3rd January 1908, on which latter date he took charge of the Hassan District after his return from long leave, nor will he be entitled to full pay until that date.

3	13630 Exm(18-07)	30	I.-G. of Edn.	Observes that the punishment awarded by the Inspector-General of Education to one Krishnachar debarring him from attending any public school in the State for a period of two years for having persuaded one Madhwaramanachar, a lad of fourteen, to personate him at the Lower Secondary Examination held at the Chitaldrug Centre, is undesirable and that it would be more appropriate to debar him from appearance at an examination or better still to refuse a pass certificate and to withhold it for two years and requests the Inspector-General to amend his order accordingly.
